Public Notification
"Posting Sites"

System: _____ **PWSID:** _____

State and Federal regulations require that a community water system provide a public notification when maximum contaminant levels (MCL) have been exceeded or when other monitoring and reporting violations have occurred. One of the requirements may be to post the notice throughout the community.

Date	Name of Facility

I, the undersigned, confirm that a copy of the Public Notification was prepared and distributed to the above listed facilities.

Printed Name: _____

Signature: _____ Date: _____
