STRIVE: Making a Plan for Graduates

The pilot year for STRIVE will impact high school students enrolled in the Reaching Potential through Manufacturing (RPM) Program and the Performance Learning Center as they graduate or pass the GED and make decisions for their future.

Based on the student's unique needs, skills, and interest we will help them build a job plan and secure additional training and education if applicable utilizing technical programs, apprenticeships, and certifications.

RISE Augusta is thrilled to be joining the Augusta University Literacy Center, Harrisburg Family Health and Augusta Locally Grown in a new permanent location in the heart of the community we serve
