

RESCON COVID-19 Sanitize & Disinfect Service

PROTECTING YOUR PROPERTY

99.9%

What is Coronavirus Disease 19?

Coronavirus Disease 2019 (COVID-19) is a respiratory illness that can spread from person to person. The virus that causes COVID-19 is a novel coronavirus that was first identified in December 2019 during an investigation into an outbreak in Wuhan, China.

How does Coronavirus spread?

Coronavirus can spread from person to person through respiratory droplets produced when an infected person coughs or sneezes. These droplets can then land in the mouths or noses of people who are nearby. They may also land on objects and surfaces. Others can then become infected by touching these things, then putting their hands on/in their eyes, nose or mouth. According to WHO the Coronavirus may survive on surfaces for several days, that is why the quarantine period is at least 14 days.

RESCON Sanitize & Disinfect Service.

The key to protecting your environment is to sanitize and disinfect. The EPA has approved Bioesque Botanical Disinfectant Solution -- which is a patented technology -- for killing bacteria, mold and viruses including Coronaviruses with a kill time of 4 minutes with a 99.9% success rate. This solution is a **GREEN** product free of bleach and phosphates, and is non-corrosive. There are no harsh chemicals and is safe for every day use -- even on food contact surfaces.

To kill COVID-19, the EPA recommends a 4 minute treatment -- but RESCON will sanitize and disinfect areas in 2 steps.

Steps to Protect your Property*

Whether you own or manage a hospital, school, shopping mall, office, church, or other commercial building, there are steps you can take to sanitize and disinfect your property, which can decrease the spread of the virus.

Make the RESCON COVID-19 Sanitize & Disinfect service your solution.

STEP ONE

Use an electrostatic sprayer will apply the solution on all areas (e.g., walls, ceiling, floors) for 5 minutes.

STEP TWO

Manually spray and wipe high-traffic areas like door knobs, desktops and key locks.

**This service is good only to a point in time. The virus can still be tracked back after the sanitation and disinfection process has been carried out. Multiple and/or continued treatments may be needed.*

You can rely on RESCON.
