JP Maguire has several trained SteraMist™ technicians that can respond anywhere in Connecticut to promptly disinfect/decontaminate your facility.

- ✓ SteraMist™ is 99.999% effective at deactivating the virus within 7 minutes and because the main component of the process is Hydrogen Peroxide, the only byproduct is oxygen and water vapor rather than harsh and corrosive cleaners.
- ✓ SteraMist™ is safe to use around sensitive electronics and expensive industry specific equipment.
- ✓ JP Maguire adheres to all OSHA regulations and strictly follows the state and federal guidelines when it comes to disease cleanup and disinfection.
