

The beers we are tasting represent different styles and different states – six different states to represent the original states of **MISBO**! We have provided a main tasting beer and alternates for each of the six rounds to help you with your shopping. Make sure your beers are cold in time for the evening event! We recommend having a glass of water to cleanse your palate between rounds, some plastic cups to pour tastes into, pretzels or other slightly salty munchies, and a couple of good friends to help out (appropriately distanced, of course).

INSTRUCTIONS: Print out these pages to take with you to your local bottle shop. You can poke around if you want, but there are knowledgeable people there who can help you – and once they hear what you are doing, they will probably be very impressed. This page lists the beers the Beer Bros. will have. The next page lists alternates for each of the styles we are tasting.

SHOPPING LIST - TASTING BEERS + ALTERNATES

We will be tasting each of the styles below (not all of the beers on this list!!! - we have to work tomorrow). The Beer Bros. will have the beer in the first column, the "Tasting Beer." If you can get that one where you are - GREAT! If not, we have listed beers of the same style from several different states. (E.g. if you live in Georgia, check the "Georgia" column for beers you can probably find in your local bottle shop.) The "Universal" column on the right represents beers that should be available in most places.
