

How to Create (Activate) Your Account 3 easy steps!

Use these instructions if your company is already a member of AAGA to activate your individual account under the company.

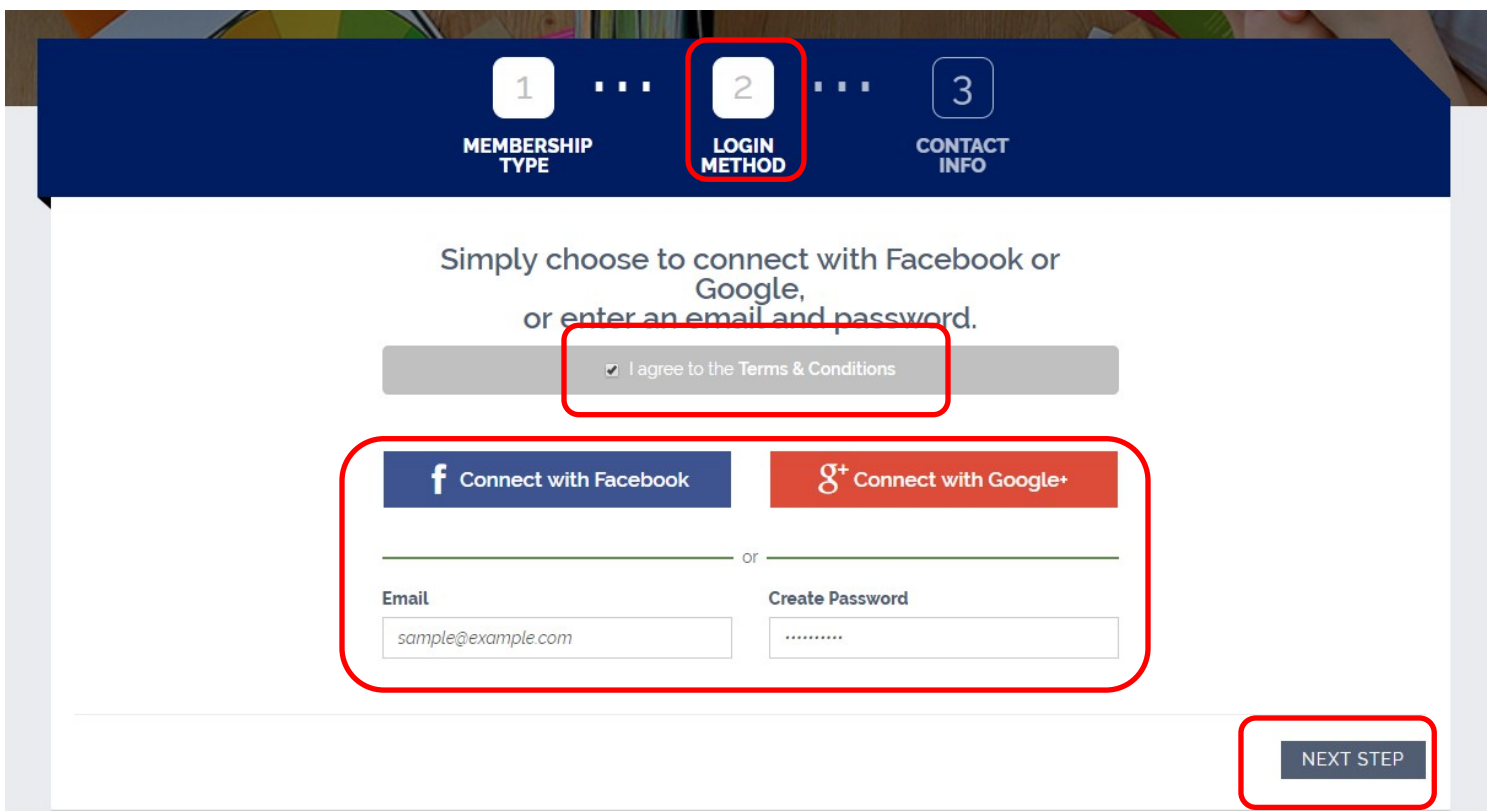

Visit <https://www.aagaonline.com/login>

Step 1: Select Create an Account on the login page.

Step 2: Login Method (Create An Account)

On the next page, you'll begin to create your account. Click Agree to the Terms & Conditions & enter the email and password you'd like to be associated with the account (or, connect via your Facebook or Google+ profile—this does not allow us to login to your social networks!).

Step 3: Contact Info

Step 3 is for providing your contact information. The required fields are First Name, Last Name, Parent Member, and Email address.

Additional optional information such as Job Title, Credential/Designations, and more can be added at your discretion.

In AAGA's member directory, Property & Management Company profile information is only visible to logged-in members. It is not visible to the public.

Parent Member: This field is where you type your employer's Company name. Begin typing the name and the company name & information should populate in the field. See image on the right for an example.

If your company name does not show up, they may not be a member. Contact the AAGA office to verify your company's membership status.

Select Complete Registration at the bottom of the page. You're all set!

Now you can login & register for our programs, meetings, & events at member pricing, plus access members-only resources.

The image displays three sequential screenshots of a registration form. The top navigation bar indicates the current step is 'CONTACT INFO' (Step 3), with 'MEMBERSHIP TYPE' (Step 1) and 'LOGIN METHOD' (Step 2) also visible.
