**Ratification of Proclamation of Local Emergency for the Late December Winter**

**Storm**

Since Tuesday, December 23, 2025, a series of atmospheric rivers have brought high-intensity rainfall and strong winds to Los Angeles County (County), heightening the risk of flooding, landslides, debris flows, and rapidly rising creeks and rivers. The National Weather Service reported moderate to heavy rainfall from Tuesday, December 23 through Friday, December 26, with additional showers possible later in the week. In addition, a brief tornado warning was issued on December 24, 2025, for Alhambra, Monterey Park, and South and East Pasadena; that warning has since been canceled. A flash flood warning was also issued in the San Gabriel foothills. The storm increases the risk of flooding and debris flows, particularly in areas affected by recent wildfires. County officials are closely coordinating emergency operations and resources throughout the storm.

On December 23, 2025, Los Angeles County Board of Supervisors Chair Hilda L. Solis hosted a press conference in anticipation of the storm to provide residents of Los

Angeles County updates on the flood watch, sandbag distribution sites, mud and debris flow forecasts, rain preparedness tips, road conditions and other related resources. County departments were directed to actively monitor conditions and stand ready to respond to any emergencies. On Wednesday, December 24, 2025, Governor Gavin Newsom declared a state of emergency for Los Angeles County, mobilizing additional resources to support local response and recovery.

On December 24, 2025, pursuant to Government Code sections 8558(c) and 8630 and Los Angeles County Code section 2.68.110, the Chair of the Los Angeles County Board of Supervisors Hilda L. Solis proclaimed the existence of a local emergency based on the Late December Winter Storm (Proclamation of Local Emergency) in the County. The Proclamation of Local Emergency finds that there exist conditions of disaster or of extreme peril to the safety of persons and property caused by the Late December Winter Storm and its aftermath in the County, which are or are likely to be beyond the control of the services, personnel, equipment, and facilities of the County, and require the combined forces of other political subdivisions to combat.

The Proclamation of Local Emergency enables the County to more effectively respond to the impacts of the Late December Winter Storm, accelerate the procurement of vital supplies, seek and utilize mutual aid, and potentially obtain reimbursement and assistance from the State and Federal government.

Pursuant to Government Code section 8630(b) and Los Angeles County Code section 2.68.110, the Proclamation of Local Emergency shall not remain in effect for a period in excess of seven days unless it has been ratified by the Board of Supervisors (Board).

**I, THEREFORE, MOVE** that the Board of Supervisors:

- 1) Ratify the attached Proclamation of Local Emergency made on December 24, 2025, based on the Late December Winter Storm in the County of Los Angeles, which proclamation shall remain in effect until its termination is proclaimed by the Board; and
- 2) Forward a copy of the Proclamation of Local Emergency to the Director of California Governor's Office of Emergency Services with the request that the Director find it acceptable in accordance with State law; that recovery assistance be made available under the California Disaster Assistance Act; and that the State expedite access to State and Federal resources and any other appropriate federal disaster relief programs; and
- 3) Direct County Departments to implement all assessment, assistance, and monitoring efforts as applicable.
