

What if you could lead your school teams with a reset that brings clarity, calm, and renewed direction?

That's what The Readiness Reset™ offers: a space to step back, reflect, and return with practical tools to lead people and priorities, even when policies shift and pressure rises.

THE READINESS RESET

Navigating Talent, Turnover & Team Sustainability for PK – 12 HR School Leaders

HR leadership in schools is complex and nonstop. From talent gaps to shifting policies, the demands are high and constantly evolving. The Readiness Reset™ offers school HR and human capital leaders a rare chance to pause, regroup, and move forward with purpose.

This keynote helps you step back from the daily grind and reconnect to the deeper reason behind your work. You'll walk away with tools to lead strategically, not just reactively, and the energy to keep going when the pressure is on. It's not about adding more. It's about getting clear on what matters most—and building the capacity to lead it well.

Together, we will discover how to:

- ✓ **Reconnect to purpose**
Return to the why behind your work, especially when the pressure to solve every problem feels constant.
- ✓ **Clarify what drives real impact**
Cut through the noise to focus on priorities that directly support student learning and staff sustainability.
- ✓ **Access the support you need to lead with impact**
Identify the people, tools, and practices that restore your energy and reinforce your capacity to lead well.
- ✓ **Step forward with focus and momentum**
Create a real-time plan to grow in your leadership and take aligned action using tools you'll work through during the session.

Join Debbie!

Become a more impactful school HR leader; grounded in your purpose, aligned in your priorities, and equipped to create meaningful outcomes for your staff, students, and school community.
