for your **FUTURE**

### ADVOCACY

ACEC Illinois advocates at the state and federal levels to protect your business and strengthen the engineering industry. We champion Quality Based Selection, sustainable infrastructure funding, and policies that create opportunities for your firm to succeed.

Through ACEC's powerful national advocacy network and one of the largest PACs in the nation, your voice has influence where it matters most.

### EDUCATION

Stay ahead of industry trends and meet your professional licensing requirements with high-quality education designed for engineers and industry professionals.

Access member-organized seminars, conferences, and government agency programs offering valuable insights and PDH opportunities.

### NETWORKING

Build relationships with fellow engineering firms, industry leaders, and government agencies across Illinois. ACEC Illinois creates opportunities to share ideas, open doors, and build connections that strengthen your business and our industry.

### TRUST PROGRAMS

- Health & Life Insurance: UnitedHealthcare plans designed to provide significant healthcare savings.
- Retirement: Competitive retirement plan options with some of the industry's lowest expense ratios.
- Business Insurance: Coverage designed with engineers in mind, by professionals who understand how your firm operates.

### ENGINEERING EXCELLENCE

Your projects deserve to be recognized. The ACEC Illinois Engineering Excellence Awards celebrate outstanding work, innovation, and the positive impact your firm makes for clients and communities.
