LETTER FROM THE PRESIDENT OF ACEC ILLINOIS

The American Council of Engineering Companies of Illinois (ACEC Illinois) is the voice of the business of engineering in Illinois. With roots dating back more than 100 years, ACEC Illinois represents more than 200 companies and over 11,000 engineers, architects, land surveyors and other specialists. Our primary mission is to strengthen the business environment for our member firms through government advocacy, political action, and business education.

As our members rebuild and modernize Illinois' infrastructure, ACEC IL monitors the business climate to ensure work continues in a safe and business friendly environment. ACEC IL members are the most respected and sought after in the industry as both private and public sector clients have praised them for their innovation, ingenuity, effectiveness and vision. To put it simply, ACEC Illinois members are leading the way.

As we celebrate the exceptional engineers, engineering projects and the industry as a whole, it is my honor to congratulate this year's most outstanding engineering achievements.

Thank you for all you do.

Kevin Artl
President and CEO
ACEC Illinois

Kevin Artl
ACEC ILLINOIS President & CEO

**Orhan Ilgaz Ulger – 2IM President
ACEC ILLINOIS BOARD CHAIR**

LETTER FROM THE ACEC ILLINOIS BOARD CHAIR

On behalf of the American Council of Engineering Companies of Illinois, it is my privilege to celebrate with you the 2021 Engineering Excellence Awards.

As we are celebrating our 100th year Anniversary, for the past 100 years, ACEC Illinois members have led the way in designing solutions that repaired, improved, and modernized our state's infrastructure within the budget provided. This year's projects highlight the very best and brightest of 2020—projects that increased safety, protected our environment, improved logistics and brought modernization and efficiency to our transportation network across Illinois.

This year's projects range from driver safety programs to waterway improvement projects to pedestrian facilities to wastewater innovations and even Wrigley Field. Each project submitted has its own unique aspects highlighting the talents and skills of our professional engineers. All these projects become reality with a team of engineers, planners, technicians, and scientists who all collaborate with their clients to produce truly outstanding results. The diverse teams combine the innovative ideas of engineers from diverse backgrounds to solve complex client challenges—with one superseding goal—to make Illinois a leading state.

ACEC Illinois is proud to celebrate the work and achievements of our state's engineering professionals who bring their clients' ideas and hopes to reality.

As engineers, we understand the value of teamwork and for that we thank the owners and public officials who entrust their projects to our engineering teams.

On behalf of the ACEC Illinois Board of Directors, I would like to congratulate this year's award winners, and encourage everyone to start thinking about the great projects that could be eligible for next year's competition.

I wonder what the project will look like hundred years from now, during our 200th Anniversary?

Thank you and congratulations to all.

**Orhan Ilgaz Ulger, PE
Board Chair, ACEC Illinois**

The Engineering Excellence Awards recognize the year's most outstanding engineering achievements. ACEC Illinois uses the Engineering Excellence Awards Program to celebrate the amazing work provided to member clients, recognize the accomplishments of our emerging professionals, applaud the contributions made to the engineering profession, and highlight the impact made to society.

Congratulations, Illinois Tollway!

Honor Award, Transportation:
Illinois Route 47 Interchange on the
Reagan Memorial Tollway (I-88)

Civiltech Created 3D Model for Illinois Tollway Project

The Illinois Tollway had initiated the implementation of 3D modeling as a contractual deliverable for this project. The pilot was intended to observe and analyze the process, identify challenges and determine changes to policy or approach that may be needed to more fully implement 3D modeling in the future. Civiltech provided Phase II design engineering for the preparation of plans, specifications and estimates. The interchange project was built by Curran Contracting, Inc. and construction was substantially complete in late 2019.

STATE OF ILLINOIS

EXECUTIVE DEPARTMENT

Proclamation

WHEREAS, well-designed and safe infrastructure was the foundation of Illinois' economy even prior to statehood; and,

WHEREAS, today, Illinois sits at the crossroads of the nation, and high-quality infrastructure is vital to the economic success of both our state and the country as a whole; and,

WHEREAS, the Chicago Association of Consulting Engineers was formed in 1921 to promote quality engineering and to advocate for the engineering profession, becoming a founding member of the Consulting Engineers Council of the United States in 1956; and,

WHEREAS, the Chicago Association of Consulting Engineers merged with other professional engineering organizations in 1964 to form the Consulting Engineers Association of Illinois to represent the engineering profession statewide; and,

WHEREAS, in 1967 the Consulting Engineers Association of Illinois renamed itself the Consulting Engineers Council of Illinois, and in 2004 renamed itself again to the American Council of Engineering Companies of Illinois; and,

WHEREAS, the American Council of Engineering Companies of Illinois now represents over 200 firms and 11,000 employees; and,

WHEREAS, numerous leaders in the Illinois engineering sector have gone on to be president of the national group representing the engineering sector; and,

WHEREAS, members of the American Council of Engineering Companies of Illinois provide critical engineering services across the state that protect the health, safety, and welfare of Illinoisans; and,

WHEREAS, the engineering industry is committed to diversity, with federally designated Disadvantaged Business Enterprise firms serving on the board of the American Council of Engineering Companies of Illinois;

THEREFORE, I, JB Pritzker, Governor of the State of Illinois, do hereby proclaim April 8, 2021, as American Council of Engineering Companies of Illinois Centennial Day and thank Illinois engineers for their work keeping the public safe.

In Witness Whereof, I have hereto set my hand and caused the Great Seal of the State of Illinois to be affixed.

Done at the Capitol in the City of Springfield,
this EIGHTEENTH day of MARCH, in
the Year of Our Lord, two thousand and
TWENTY-ONE, and of the State of Illinois,
two hundred and THIRD.

Dee Dee White

Good Luck Brittany Emerging Professional of the Year Nominee, 2021

Brittany Cook proves herself to be a vital and invaluable member of our team in every way, with every assignment. We celebrate her accomplishments and her future with our firm and in our industry. We heartily congratulate Brittany on her nomination.

"I am so proud to be a contributing member of the R.M. Chin team. Each project gives me opportunities to expand my knowledge in so many ways. I am excited to continue my education and grow as a representative for the advancement of engineering in the construction community."

Brittany Cook, P.E., Assistant Project Manager

IVP, Keeping America's Engineers Safe

Breathe Easier with IVP

The Venue Mobile Unit

Our most powerful unit built for large commercial spaces & facilities, delivering the cleanest, virus-free indoor anywhere.

The Room Mobile Unit

Designed for healthcare, office and residential spaces, providing clean air so you can breathe with confidence.

Enhanced HVAC Filtration

Easily retrofitted to existing HVAC systems or forward fitted to new construction, providing defense against COVID-19 and other viruses.

The Travel Mobile Unit

Small but powerful personal, portable air purifier that is designed for travel, offices, or in-person meetings.

QBS

QUALIFICATIONS-BASED SELECTION

QBS Process

1

Establish Evaluation Criteria and Select Best Qualified Firm

2

Jointly define scope and contract terms.

3

Retain the firm on the basis of an acceptable proposal.

Download
Resources
www.acecil.org

The American Council of Engineering Companies of Illinois, Illinois Society of Professional Engineers, Illinois Professional Land Surveyors Association and the American Institute of Architects endorses a selection procedure most often referred to as Qualifications Based Selection (QBS).

ACEC-IL promotes the interests of consulting engineering firms through business, government and public affairs programs, because Illinois Engineering Matters.

AMERICAN COUNCIL OF ENGINEERING COMPANIES
of Illinois

A PROUD SUPPORTER OF ACEC ILLINOIS

We build the crucial infrastructures that millions of people depend on every day. We go above and beyond to meet the needs of our clients and keep the Chicago area moving because we know what movement means to you.

Movement means travel and commerce. Movement means community and growth. Movement means life.

At OMEGA, we build what keeps you moving.
