Moving the Consulting Engineering Industry Forward

ACEC/PA

Moving the Consulting Engineering Industry Forward

ACEC/PA represents nearly 13,000 engineers, architects, land surveyors and other specialists in Pennsylvania, with a primary mission to strengthen the business environment for member firms through government advocacy, political action and business education.

- **Partnerships**
ACEC/PA creates partnerships with clients, government, coalitions, other associations and businesses to provide its members with access to valuable information and services designed to enhance day-to-day operations.
- **Advocacy**
ACEC/PA advances legislative priorities that are most important to the consulting engineering industry, and helps to shape and influence issues that are critical to the membership.
- **Education**
ACEC/PA hosts accessible and ongoing professional education and training opportunities for new hires to executives. The association's opportunities are designed to help the membership retain top talent, increase engagement, and stay abreast of relevant industry changes and topics.
- **Resources**
ACEC/PA keeps its members informed of essential information and provides significant resources such as a newsletter (*forward*), a member directory, annual report, salary survey and several other industry-specific publications poised to engage the membership at every level.
- **Committees**
Each of ACEC/PA's committees and their leadership serve as a conduit to foster, grow and protect the industry and the association's members through initiatives and relationships with strategic partners.
