

FOR IMMEDIATE RELEASE

ACEC/PA HONORS PENNSYLVANIA ENGINEERING COMPANIES AT ANNUAL AWARDS

HARRISBURG, Pa. (Jan. 31, 2022) – The American Council of Engineering Companies of Pennsylvania (ACEC/PA) recently honored engineering firms from across the commonwealth at the organization’s annual Diamond Awards for Engineering Excellence.

These award-winning projects combine important safety measures, impressive engineering and spectacular designs. From outstanding plans to exceptional execution, the honored teams and projects demonstrate the hard work, skill and dedication of ACEC/PA members and put their expertise on full display.

“We presented 15 remarkable awards and special honors to accomplished engineering firms that have sought out opportunities to better their communities,” said Leeann Sherman, executive director of ACEC/PA. “It has been so exciting to see these firms push themselves to achieve such fantastic projects and truly work to create a better Pennsylvania. Our members have completed insurmountable tasks and have overcome the toughest of obstacles to do so. We are so proud of the work our members have done and the dedication they have to this commonwealth. We are honored to celebrate them with these awards.”

This year’s winners created needed facilities, improved upon and strengthened infrastructure, increased public safety, worked collaboratively with important clients, and remained conscious of their environmental impacts. The winning projects, as well as the firms involved, are truly impressive feats of engineering success. A Diamond Award for Engineering Excellence is a tribute to not only the winning project and its engineering firm, but also to the clients, owners, sub-consultants, contractors and everyone who helped these projects come to fruition.

Fifteen projects received awards for their contributions to excellence in the engineering industry:

- **The Award for Studies, Research and Consulting** was presented to Johnson, Mirmiran & Thompson for the completion of the Local Roads Mileage System Development and Implementation project.
- **The Award for Structural Systems** was presented to Whitney Bailey Cox and Magnani for the completion of the Roundhouse at Hazelwood Green project.
- **The Award for Surveying and Mapping Technology** was presented to Larson Design Group for the completion of the SMCMUA Watermain Replacement Community Engagement Hub project.
- **The Award for Environmental Projects** was presented to RETTEW Associates for the completion of the State Route 115 Improvement Project.
- **The Award for Waste and Stormwater** was presented to HNTB for the completion of the Brandywine Creek Road Slope Stabilization project.
- **The Award for Water Resources** was presented to Urban Engineers for the completion of the Harrisburg International Airport Levee System Rehabilitation project.
- **The Award for Transportation** was presented to Gannett Fleming for the completion of the I-83 Exit 4 Improvements project.
- **The Award for Special Projects** was presented to CDR Maguire for the completion of the Southern Beltway Section 55A2 (Quicksilver Road to Panhandle Trail) project.
- **The Award for Small Projects** was presented to Gannett Fleming for the completion of the Penn State Ancient Biomolecules Research Environment project.
- **The Award for Energy** was presented to Langan Engineering and Environmental Services for the completion of the UGIES Bethlehem LNG Facility project.
- **The Award for Industrial and Manufacturing Processes and Facilities** was presented to STV Inc. for the completion of the Dräger Manufacturing Facility project.
- **The Diversity, Equity and Inclusion Award** was presented to WSP USA Inc.
- **The Client of Distinction Award** was presented to the city of Pittsburgh's Department of Mobility and Infrastructure.

- **The Best Panel Award** was presented to WSP USA Inc.
- **The Grand Conceptor Award** was presented to HDR Engineering.
