

NOTICE  
REQUEST FOR STATEMENTS OF INTEREST  
BRIDGE DESIGN SERVICES  
SOI #24-14-GR

The County of Berks will retain a PennDOT qualified engineering consultant to provide environmental studies, preliminary engineering, final design, right-of-way acquisition services, and construction consultation for the replacement of the Moselem Springs Bridge, County Bridge #63B, Eagle Road over Moselem Creek in Richmond Township, Berks County. The existing structure, currently weight restricted at 5 Tons and designated as Functionally Obsolete and Structurally Deficient, was constructed in 1905 and is a single span steel through truss superstructure supported on concrete abutments with a span length of 52'. The roadway width on the bridge is 18' out to out. The bridge has an average daily traffic (ADT) of 687 cars per day, as measured in 2019.

The new structure will meet current PennDOT design and safety standards as applicable and will be constructed in accordance with PennDOT Publication 408 while providing a context-sensitive design approach. It is anticipated that design and construction funding will be 100% Act 13 Fee for Local Use. Berks County encourages responses from small firms, minority firms, and firms who have not previously performed work for the County.

The County will select one (1) firm for the purpose of negotiating an engineering agreement based on the evaluation of the acceptable Statements of Interest received in response to this solicitation. For the purpose of negotiating a contract, the ranking of firms will be done utilizing the modified selection method which allows selection directly from the Statement of Interest – technical proposals will not be required prior to the ranking. A full technical proposal will be required from the selected consultant.

The following factors, listed in order of importance with weighted percentages, will be considered by the County during the evaluation of the business partners submitting statements of interest:

- Specific experience of the individuals listed for each position that constitutes the proposed project team with emphasis on their background in working for and familiarity with PennDOT procedures and specifications. Past Experience with a similar role on PennDOT projects.
- Review of the consultant's overall bridge design experience, abilities, project concept and approach.
- Project Manager's experience with similar projects.
- How will you pursue project delivery in related to developing and/or meeting a realistic design schedule and completing the project within budget?

To be eligible for the work, the consultant and any subconsultants must be a PennDOT ECMS Registered Business Partner. If eligible, please one (1) hard copy of a statement of interest and one (1) electronic copy on a CD or thumb drive on or before 4 PM on May 30, 2024 to: George Rodrigues, Deputy Director of Contracts and Procurement, County of Berks, Berks County Service Center, 633 Court Street, 13<sup>th</sup> Floor, Reading, PA 19601. Questions regarding this request can be directed to [grodrigues@berkspa.gov](mailto:grodrigues@berkspa.gov). The statement of interest shall, at a minimum, include the following:

- A concise narrative describing the project including replacement alternatives and any special considerations (5 pages max.)
- U.S. General Services Administration (GSA) Form 330 (Resumes should be of key people stating their specific role in the project and project descriptions must include client contact information and emphasize areas of expertise)
- References for similar projects (a minimum of 5)
- List any subconsultants that will be used for this project and their role/responsibility. Please provide resumes and project references for each subconsultant
- A design schedule
- Statement of current and anticipated workload for the proposed project team
