

## **Kevin M. Skeels, P.E.**

Kevin Skeels is the Chief Engineer for the Delaware River Joint Toll Bridge Commission. In this role, he coordinates the planning of the engineering activities associated with the design, construction and maintenance of bridges, highways and buildings; and oversees in the development and implementation of the Commission's Capital Program to preserve, protect, manage and enhance the Commission's asset base.

He has over 35 years of experience in highway and bridge design and construction industry, which includes previous employment at major national consulting engineering firms servicing both public and private sector clients in the planning, design and construction management of bridges, tunnels, highways, railroad and buildings infrastructure.

He holds an A.A.S. from Westchester Community College in Valhalla, New York, and a B.S.C.E. from the Northeastern University in Boston, Massachusetts.

Mr. Skeels is a member of the Civil Engineering Honor Society Chi Epsilon and ASCE and is a Registered Professional Engineer.
