

Chris Foley, P.E.

Chris Foley, P.E. is a Vice President at WSP USA Inc. with 17 years of experience in the design, construction and rehabilitation of bridges and tunnels. Since 2022, he has served as the Engineering Manager for VDOT on the \$3.9 billion Hampton Roads Bridge Tunnel Expansion Project, where he is responsible for engineering oversight across all disciplines.

In previous roles, Chris served as the project manager for VDOT's statewide tunnels contract, managed numerous projects with Elizabeth River Crossings on the Midtown and Downtown Tunnels and served as lead structural engineer for numerous VDOT bridge projects. He has worked on all of the movable bridges and tunnels in Virginia.

Chris received a BS in Civil Engineering from UVA.
