

Bob Taylor, P.E., Pennsylvania Turnpike Commission

Bob Taylor, P.E., serves as the Chief Technology and Growth Officer at the Pennsylvania Turnpike. Focusing on harnessing the power of technology and innovation, he is dedicated to enhancing customer safety and mobility while modernizing business operations. Bob administers the technology program encompassing technology and innovation management, customer and business systems, and technology infrastructure and security.

Bob also oversees organizational growth initiatives, including but not limited to new infrastructure opportunities, new tolling alternatives, fiber and telecommunications commercialization, Journi-as-a-Service opportunities in tolling, parking, and transit, and other software-as-a-service initiatives.

Bob is the executive sponsor of the Turnpike's Innovation Council and the 'Reimagining the Turnpike' initiative. He actively contributes to Carnegie Mellon's Safety 21 Center, the PennSTART Operating Committee, the IBTTA Emerging Technology and Agency Technology Leaders committees, and the Smart Belt Coalition.

A graduate of The Pennsylvania State University, Bob holds a Bachelor of Science in Civil Engineering.
