

Mike Maloch, Municipal Traffic Engineer, City of Pittsburgh

Mike Maloch has served as the City of Pittsburgh Department of Mobility & Infrastructure's lead traffic signal engineer since 2018 and in 2022 was promoted to the role of Municipal Traffic Engineer. In this role Mike oversees the engineering design, maintenance and operations for the City's traffic control device inventory of 600+ traffic signals, 80+ flashing devices, 800,000 signs and thousands of miles of pavement markings.

Mike works with a passionate and talented team of engineers to deliver projects that improve safety and comfort for all users, especially pedestrians and cyclists. When not standing in the field observing signal operations or reviewing multi-modal street designs Mike can be found with his spouse riding their bikes to local coffee shops or breweries.
