Eric J. Setzler, PE

Eric J. Setzler, PE is the Chief Engineer for the City of Pittsburgh's Department of Mobility and Infrastructure (DOMI). In this role, he is responsible for managing the Project Design and Delivery Bureau which consists of 30 engineers, inspectors, and support staff. The Bureau maintains assets in the right-of-way, including over 1000 miles of city streets, 150 bridges, 800 sets of city steps, and 500 retaining walls. The bureau delivers capital improvement projects with a variety of funding sources including city, state, and federal funds. Eric has been with DOMI since January 2019.

Prior to joining the City, Eric had 13 years' experience as a bridge engineer at engineering firms in Ohio and Pennsylvania. His experience includes bridge, retaining wall, and sign structure design and analysis, bridge safety inspection, and project management.

Eric is a graduate of The Ohio State University in Columbus, Ohio, where he received Bachelor and Master of Science Degrees in Civil Engineering. He is a licensed Professional Engineer in Pennsylvania and Ohio, is a member of the American Society of Civil Engineers and the Association for Bridge Design and Construction and is a board member for the Engineer's Society of Western Pennsylvania.
