

Accelerate

SEPTA's Best-in-Class Vision for a Greater Philadelphia Region

October 2026

SEPTA

Accelerate shows what the future looks like when we choose to invest in SEPTA.

SEPTA

Building this future starts now, not someday.

Initiatives underway are already creating a better SEPTA.

Better Information, Better Metro

New wayfinding signage provides information when and where riders need it.

A Summer of Events

Philadelphia welcomed world-class sporting events, drawing fans, and visitors from around the globe.

A New Era of Bus Travel

Phase 1 of New Bus Network launched in August 2026 to provide more efficient service.

New vehicles start arriving by 2029.

SEPTA is making the most ambitious transformation in our 60+ year history.

New Trolleys for a New Era

Modern stations replace legacy stops on the T and D Lines with enhanced customer amenities.

Modern Metro for a Modern Region

Modern subway cars for the L Line start arriving in 2029.

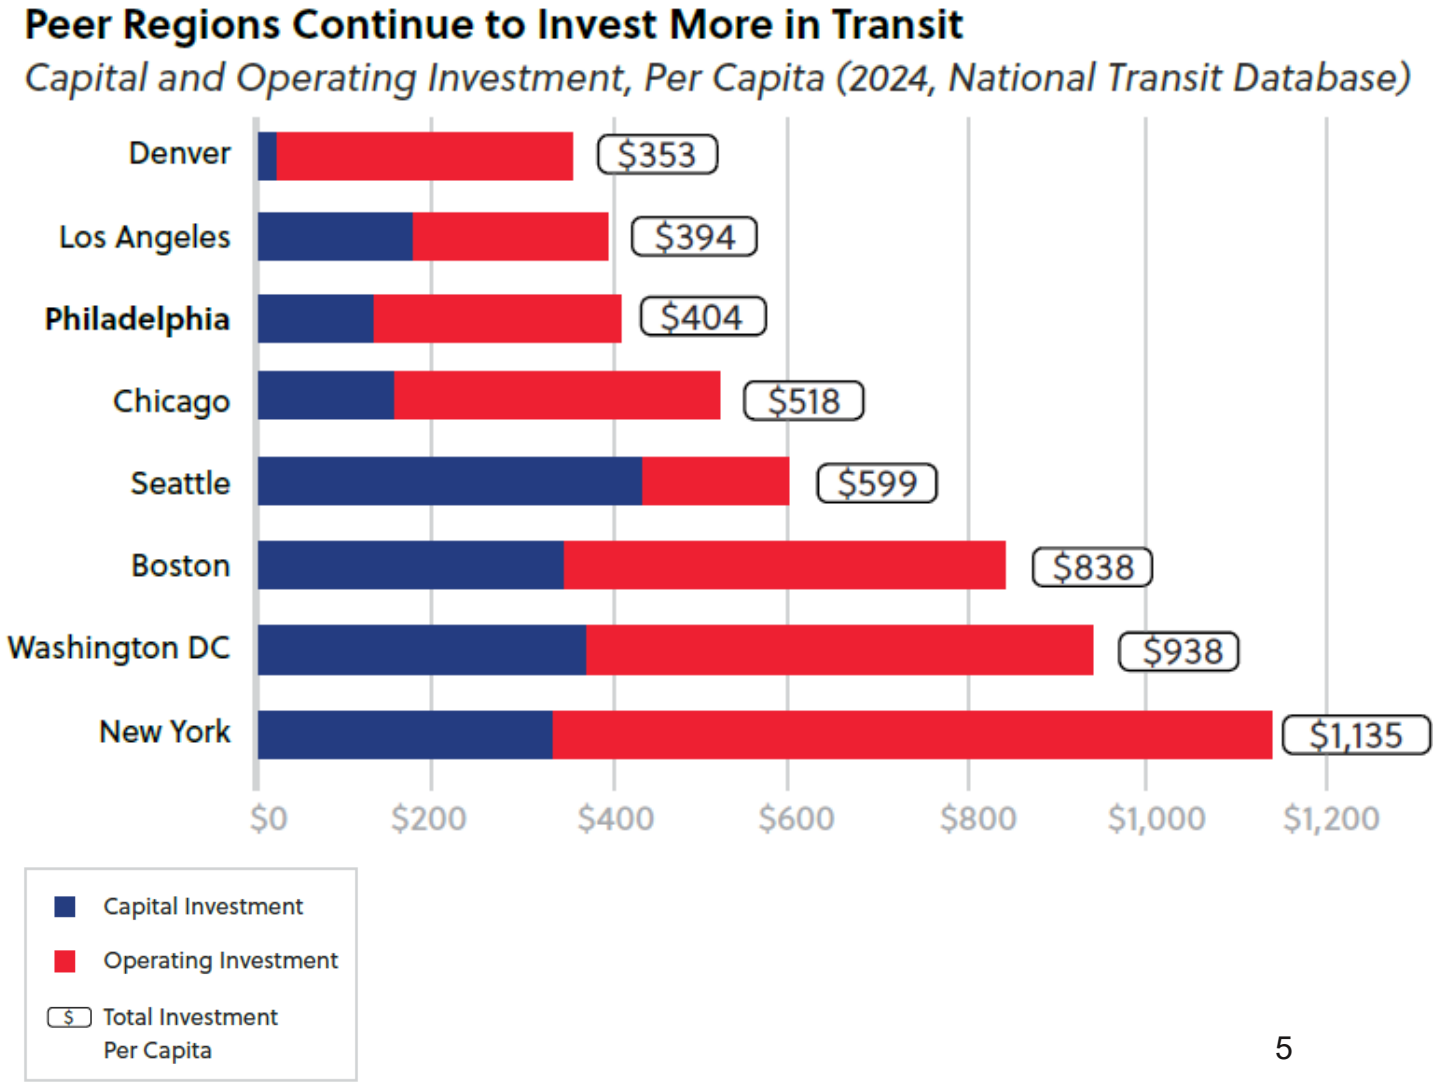

The Future of Regional Rail Arrives

$2.3 billion investment in modern vehicles with wider aisles and doors for faster boarding

Peer regions invest 70% more in transit.

Unlocking transformative projects for their communities.

Investing at this level delivers the SEPTA our region demands

- Fully Accessible Metro
- New B & M Line vehicles complete fleet modernization
- More frequent, more useful Regional Rail
- More accessible Regional Rail stations

New B & M Line vehicles complete fleet modernization

A fully accessible Metro is the culmination of generational efforts to rebuild every station.

Accessibility improvements at 26 Metro stations.

$1 billion+ procurement for more than 150 rail cars and associated signals and facility upgrades

Trains every 4 minutes on the L Line for 115k+ daily riders connecting every Metro & Regional Rail Line and half of the bus routes

New L Line vehicles set the standard for best-in-class Metro trains.

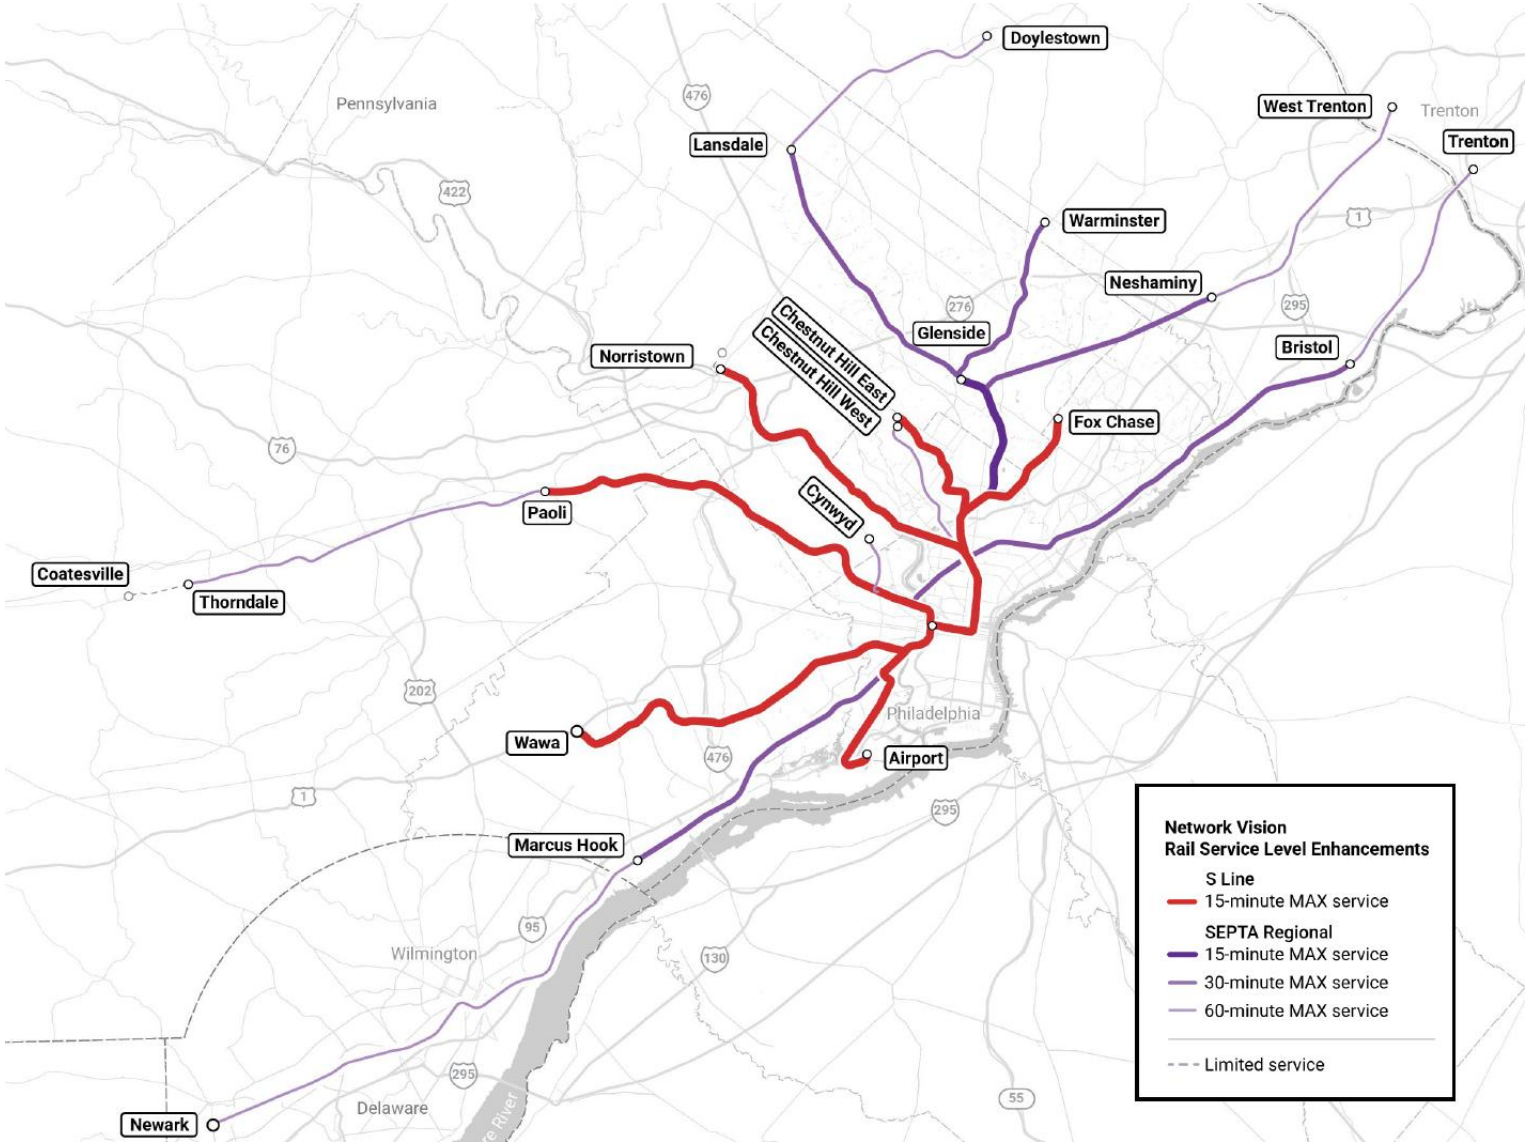

More frequent, more useful Regional Rail

Strategic improvements unlock Metro-level “show up and go” service and reliability serving dense walkable places with the highest underlying demand with trains every 15-minutes or better.

15-minute service to nearly half of our 150+ stations

More than 500k people within ¼ mile of frequent Regional Rail

Fully accessibly Regional Rail within 30 years – that’s 70 years faster than current funding allows.

Benefits accumulate across the region and Commonwealth

Potential Regional Value Generated

$12+ Billion Increase
In household property value

50,000+
Potential jobs created

$4.25B
Potential earnings growth

$434 Million Growth
In annual state and local tax revenue collections

With the right investment, we can deliver Best-in-Class transit for our region.
