

AMERICAN COUNCIL OF ENGINEERING COMPANIES
of South Carolina

**American Council of Engineering
Companies of South Carolina
Board of Director's Meeting
October 4, 2018
Parrish & Partners
10:00 AM**

Board of Directors

____ Cameron Nations, Chair
____ Keith Overstreet Vice Chair
____ Jason Eppley, *Sec./Treasurer*
____ Chuck Black, Director
____ Petrina Butler, Director
____ Matt Gehman, Director
____ Jeff Mulliken, Director
____ Kevin Shoemake, Director
____ Mike Wooten, Director
____ Kylie Page, Past Chair*
____ Rick Fauteux, Nat. Director *
____ Jerry Carter, Affiliate National Director*

Committee Chairs:

____ Emily Swearingen, Transportation Committee*
____ Randy Patrick, Scholarship Committee
____ Ricky Ward, Communications

ACEC-SC Staff

____ Adam B. Jones Executive Director*
____ Joe Jones
____ Elaine Mikell, Account Executive *
____ Other*

* denotes non-voting

Agenda

- Call to Order – Cameron Nations
- Approve Consent Agenda (Motion Required)
 - Board Meeting Minutes, September 6, 2018
 - Membership Report
 - New Member approval:
 - Insight Group (a Christopher Co.)
 - Cardno
 - Cox & Dinkins
- Financial Report – Jason Eppley
 - Financial Report (Motion Required)
- Chair's Report – Cameron Nations
 - Strategic Plan Progress
 - ✓ Grow/Diversify Membership – Kevin Shoemake
 - ✓ Grow the Brand – Kylie Page / Keith Overstreet
 - ✓ Legislative Influence - Adam Jones / Matt Gehman
 - ✓ Energize & Engage Membership – Adam B. Jones
- Executive Director's Report – Adam B. Jones/Joe Jones
 - Legislative Report
 - ACEC PAC donation to Jim Clyburn for Congressional race
 - Donation for Sen William Timmons
 - Tom Rice
 - ACEC-GA, ACEC-NC, & ACEC-SC Leadership Meeting /Listening tour
 - Gubernatorial Debate
 - Design Professionals Meeting
 - SCESS Dinner
 - Fall Golf Tournament (Proceed or Cancel)
 - SC Engineering Conference & Trade Show
- ACEC National/National Directors Report – Rick Fauteux
 - Listening Tour
 - Fall Conference
- Committee Reports:
 - Transportation Committee – Swearingen
 - Environmental Committee – Overstreet
 - B.R.E Committee – Black
 - Communication Committee – Ward
 - Membership – Shoemake
 - Advocacy/PAC – Gehman/Williams
 - EEA Awards Gala – Caleb Pozsik
- Other Business
- Next Meeting: November 1, 2018 Parrish & Partners

The mission of ACEC-SC is to promote and protect the business interests and professional standards of engineers in the state of South Carolina; and to improve member firms' ability to profitably provide quality services to their clients.

ACEC-SC Membership Report as of 9 27 18

Cardno is a professional services company that offers a multitude of services. These services include engineering, infrastructure, environmental, scientific consulting, and field services. This includes our leading edge work in the field of Utility Engineering, which focuses on mitigating risk using subsurface utility engineering, advanced surveying and mapping, and utility coordination.

Integrated Solutions

Delivering Results

About Us

When you work with Cardno you gain a single point of contact for **integrated environmental, infrastructure, scientific consulting, and international development assistance services**. Our integrated approach efficiently addresses your challenges, fostering smart, sustainable growth of your operations alongside the communities and environments in which you work. We simplify access to multidisciplinary expertise and on-the-ground experience to support your business objectives.

Local Expertise, Around the World

Cardno's thousands of professionals worldwide have supported our clients' local and multi-national projects in countries on six continents. Working with companies, governments, and agencies at all levels around the world provides Cardno the diverse knowledge to allow us to better serve our clients by providing innovative and sustainable solutions that deliver lasting value.

Our offices across the Americas are strategically located to make it easy for our team to get to your facilities or project sites, increasing efficiency. We have a deep understanding of both national and local environmental, regulatory, financial, and social conditions. Our global capability and local expertise combine to help you reduce risks, resolve challenges, improve performance, and increase resilience.

We serve clients of all types and sizes, including:

- > Energy
- > Federal, state, county, and municipal governments
- > Finance
- > Industrial
- > International development agencies
- > Legal
- > Mining
- > Real estate
- > Transportation

Industry Recognition

By working with new clients every day and expanding relationships with our existing clients, we have become a recognized leader within the industry. In recent years, Cardno has continually ranked in multiple categories as a Top firm in *Engineering News-Record's* annual lists.

Zero Harm - Every Job. Every Day.

Safety is a core value for Cardno. We are committed to continually improving our safety processes. Our Zero Harm program means that we conduct business in a way that protects our people, clients, visitors, and the public from harm, while also promoting our commitment to environmental responsibility.

Scalable Solutions

Our vast resources, operational flexibility, and geographic presence allow Cardno to provide you with the exact level of service you need – whether that means a single specialty service provided once, or integrated service across the full project lifecycle. As a single point of contact, we provide operational efficiencies for our clients.

Cardno offers services in:

- > Planning
- > Consulting
- > Engineering
- > Construction Services
- > Program Management
- > Data Management

We customize scalable solutions that deliver the level of service needed to resolve your challenges.

Infrastructure

Cardno brings exceptional value to the management and development of all phases of infrastructure projects. From the assessment of subsurface utilities or environmental impacts to reduce risks, through design and construction management, Cardno is there. We partner with your team to provide perspective, technical excellence, and the strategic vision to properly plan, design, and execute the delivery of projects- on time and within budget.

- > Asset management

- > Water/wastewater infrastructure

"Cardno has provided the most complete and creative landscape architecture, engineering and land design teams that I have worked with over the past twenty years of building homes and developing communities. Their resourcefulness in identifying grading solutions and environmental opportunities has saved millions of dollars in development cost. Cardno's leadership, in the area of environmental solutions is remarkable and needed in today's development world."

- **Division President** – Pulte Homes, Atlanta Division

Cost- Efficiency

Saving Clients Money

Cardno's construction services help you realize new opportunities, save money, and keep projects moving forward.

Cardno provided surveying, mapping, utility coordination and subsurface utility engineering for the I-4 Ultimate Improvement Project, the largest transportation infrastructure project in Florida's history. To scan ten bridge enclosures beneath five bridges in three days, we collected ~800 million three-dimensional points using terrestrial radar, which allowed for easy data collection in difficult areas that presented safety hazards.

Environment

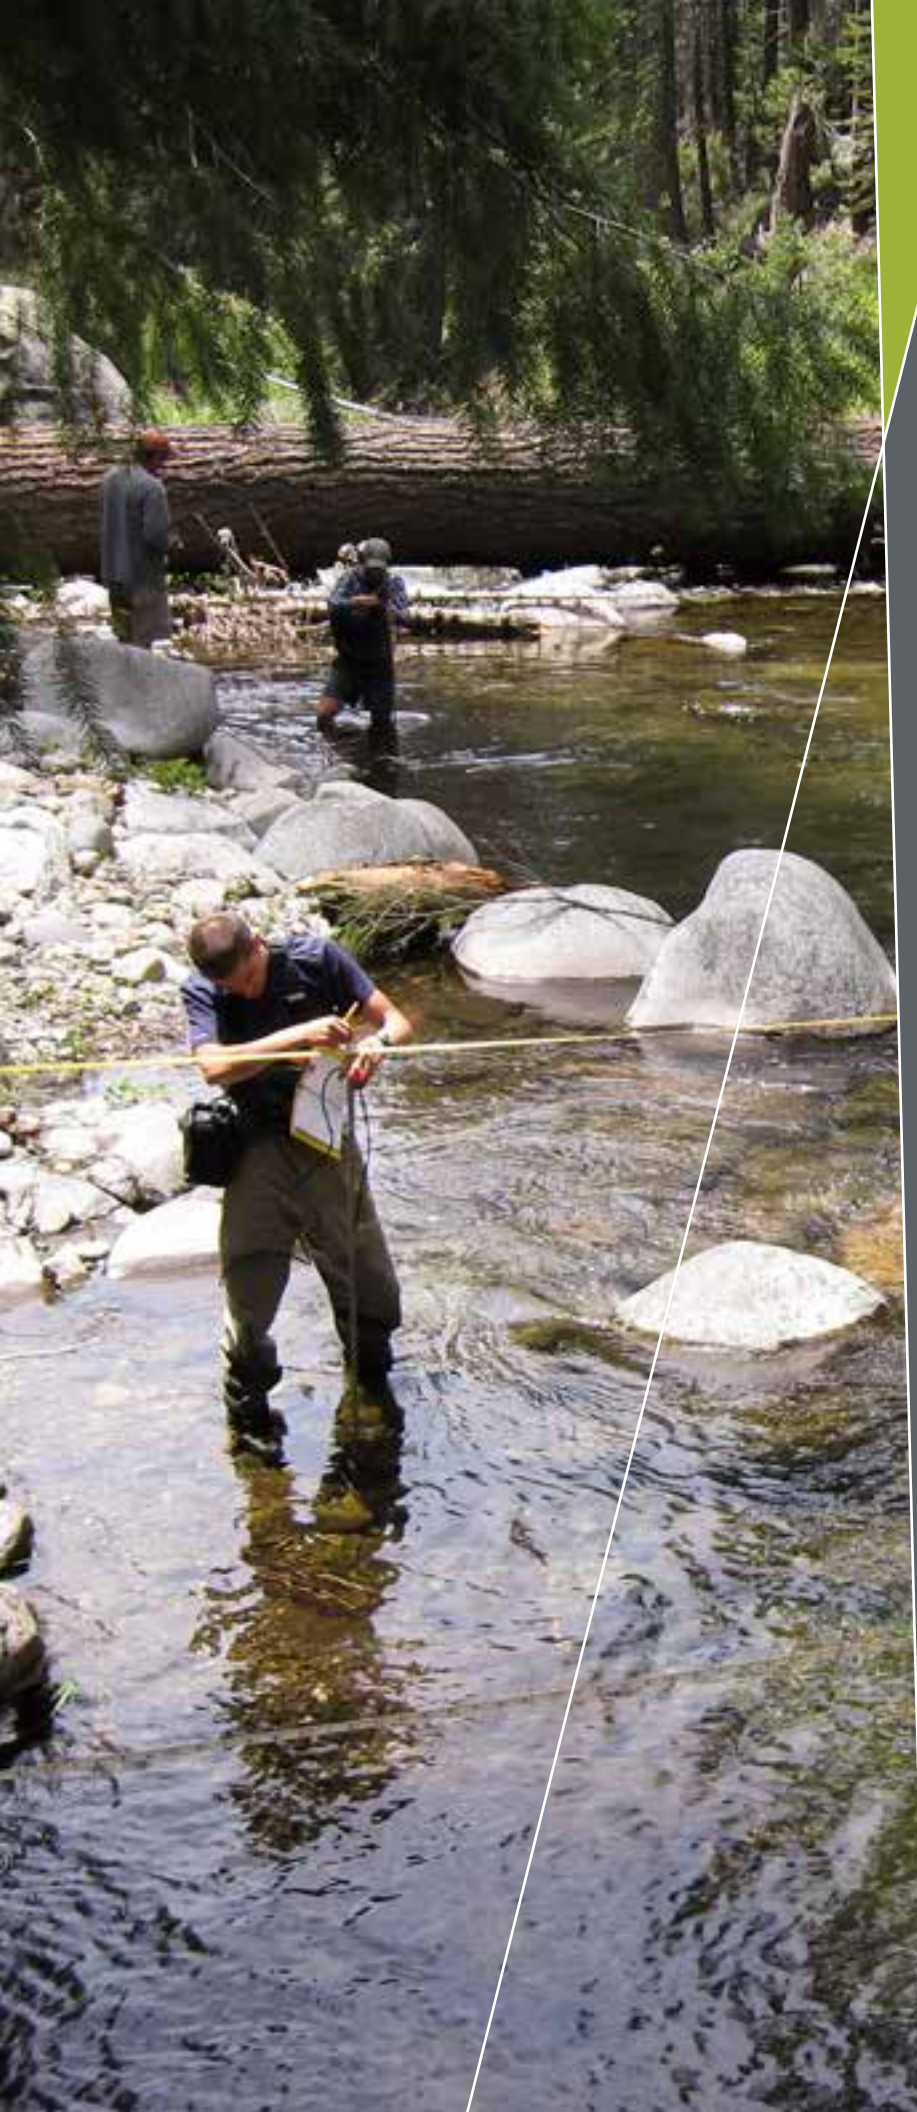

By employing top professionals and using the latest technologies, we develop innovative environmental solutions that achieve client goals along with regulatory requirements for both natural and built environments. Our interdisciplinary approach to resolving environmental challenges begins with a solid understanding of the technical and regulatory issues and provides cost-effective, results-driven solutions. Throughout the planning process, we are sensitive to public concerns and proactively engage stakeholders to keep projects moving forward.

- > Air quality

- > Natural resource management
- > Noise analysis
- > Permitting & compliance
- > Planning
- > Product safety
- > Remediation
- > Restoration
- > Water resources

"We work with many environmental and civil engineering consultants who provide good and dependable service, but seldom have we worked with a consultant (Cardno) who has brought so much value to the effort to serve one of our client agencies.

- **former Chief of Environmental Services** – State of California, Department of General Services, Real-Estate Services Division

Efficiency

Streamlining permitting

Our teams have supported hundreds of permitting efforts across the US. Our combination of regulatory experience and environmental expertise helps clients of all types improve project efficiency.

For the Middle Fork American River Hydroelectric Project, Cardno prepared and filed the relicensing application, which was the first relicensing application in the Federal Energy Regulatory Commission's (FERC) Integrated Licensing Process (ILP), which included complete management and monitoring plans.

Scientific Consulting

Our teams of scientists, engineers, and analysts are respected across the industry for our creative and scientifically defensible solutions to environmental and human health challenges. We offer unparalleled access to world-class experts who work together to address complex scientific challenges with integrity. Cardno's multidisciplinary approach provides comprehensive risk management along with qualitative and quantitative research to support your business objectives.

- > Biological
- > Epidemiology
- > Expert witness testimony
- > Exposure assessment
- > Human health & environmental risk assessment
- > Industrial hygiene
- > Modeling & analytics
- > Product sustainability
- > Remediation & mitigation strategies
- > Toxicology

A leader in human health and risk assessment, Cardno has received multiple prestigious awards from the American Industrial Hygiene Association, including "Best Paper", for an independent study showing that airborne formaldehyde levels associated with some keratin-based hair-smoothing treatments may exceed occupational exposure limits set by the US government.

Innovation

Ideas that solve problems

For seven decades, Cardno has been developing new approaches to challenging situations and delivering exceptional outcomes.

The development of a 43,000 acre biofuel feedstock operation in Florida required extensive and complex hydrogeological water supply investigations, water quality assessment, and planning and permitting. Innovative techniques were used to integrate three water sources models, creating a comprehensive data matrix used for decision making and operational guidance during site planning and development.

International

With professionals in offices across the US and around the world, we seamlessly support our clients' international operations and initiatives. We are able to provide an immediate local presence, along with the relationships and local knowledge that increase efficiencies and deliver results. Cardno works with corporate clients, governmental and non-governmental agencies to support energy, industry, social, economic and infrastructure development efforts around the world.

"As the Chief Medical Officer of the Republic of Sierra Leone, I have had close working relations with the Cardno team and I find them very professional in the execution of their duties, thorough and detail-oriented in the services they provide. They also exhibit very excellent human relations in the dispatch of their work."

- **Chief Medical Officer**, speaking on behalf of Cardno's work as Fiscal Agent for the Global Fund to Fight AIDS, Malaria, and Tuberculosis in the Republic of Sierra Leone

Partnership

Working together

For decades, we have helped clients implement their strategic priorities around the world.

Working with an NGO and the local government in Benin, West Africa, Cardno completed an extensive assessment of the economic viability of expanding operations of the Port of Cotonou as a regional trading center for the West African Economic and Monetary Union. We recommended a port development plan that included technical and operational details, addressed the financial impact of alternative designs, as well as environmental and social safeguards.

Data Management

Our collective business analytics, engineering, scientific, and software expertise provides our clients with a broad range of data collection and analytic techniques to better understand their assets, operations, and project scenarios, in real time and across decades. Our professionals make it easy to access the data to identify trends and scenarios, leading to well-informed decisions that reduce risk and costs, increase productivity, and the discovery of unrealized opportunities.

"Cardno has been a fantastic resource for the New York State Department of Environmental Conservation (NYSDEC) in the implementation and operation of our data management system for Superfund sites. Cardno has been a consistent voice of clarity, insight, and support; helping expand our data management capabilities, create outstanding best management practices, and developing in-house training and guidance documents."

- **Dan Eaton** – Environmental Information Management System (EIMS) Coordinator, NYSDEC

Planning

In the public realm or in the private sector, Cardno planners integrate technical information and design approaches that lead to successful project outcomes. We collaborate with stakeholders to support our client's goals and those of the communities in which they operate. Our planning team is a diverse group of professionals who help shape businesses, regions, and local communities across the country and around the world.

- > Planning, appeals & mediation
- > Stakeholder & community outreach

The Tahoe Regional Planning Agency (TRPA) Best in the Basin award program recognizes projects demonstrating exceptional planning, design, and compatibility with the Lake Tahoe environment. Cardno has been honored with ten Best in Basin Awards over the last 14 years.

Engineering

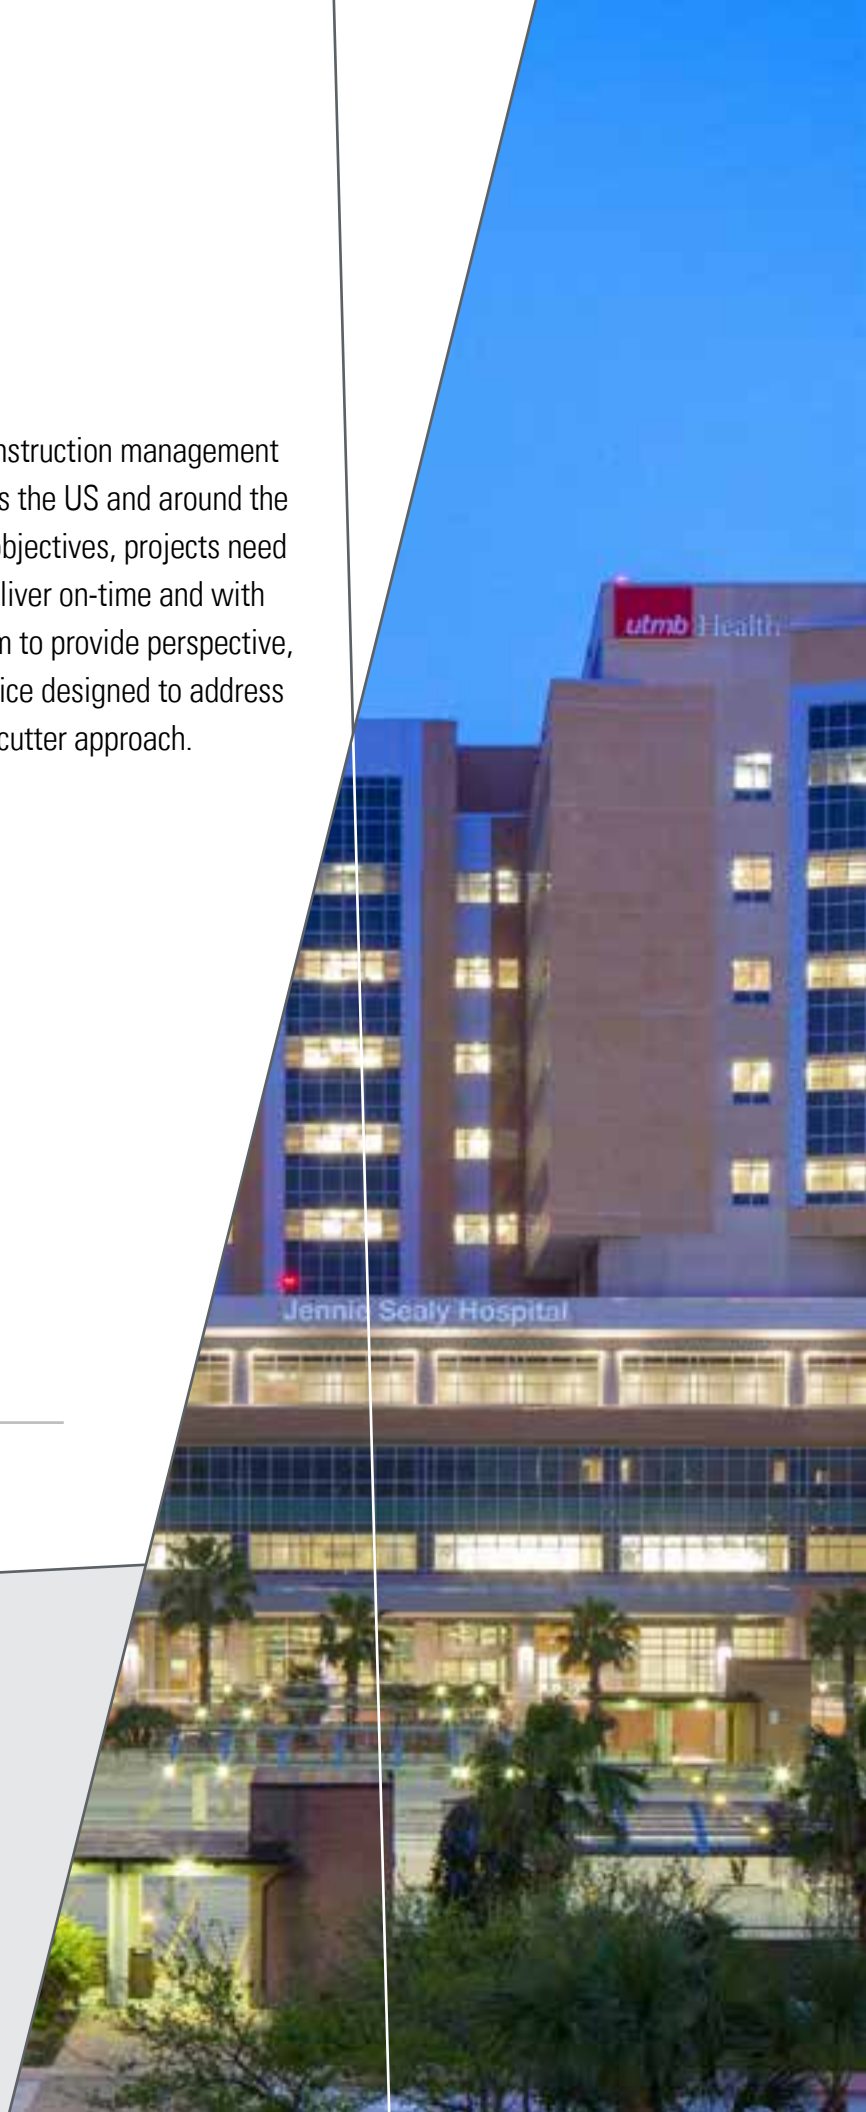

Cardno provides engineering expertise along with construction management and inspection for major infrastructure projects across the US and around the world. To meet numerous and frequently competing objectives, projects need to be properly planned, designed, and managed to deliver on-time and with strict attention to budgets. We partner with your team to provide perspective, technical excellence, strategic vision, and quality advice designed to address the demands of your project. We don't take a cookie-cutter approach.

- > Bridge & roadway design

Jennie Sealy hospital, University of Texas Medical Branch, new structural engineering & renovations following hurricane devastation.

"Cardno has very good technical knowledge of complicated industrial structural design, and responds quickly to important issues in a way that positively reflects owner interests and priorities."

- **Sean Nolan**, Senior Vice President, Development Management

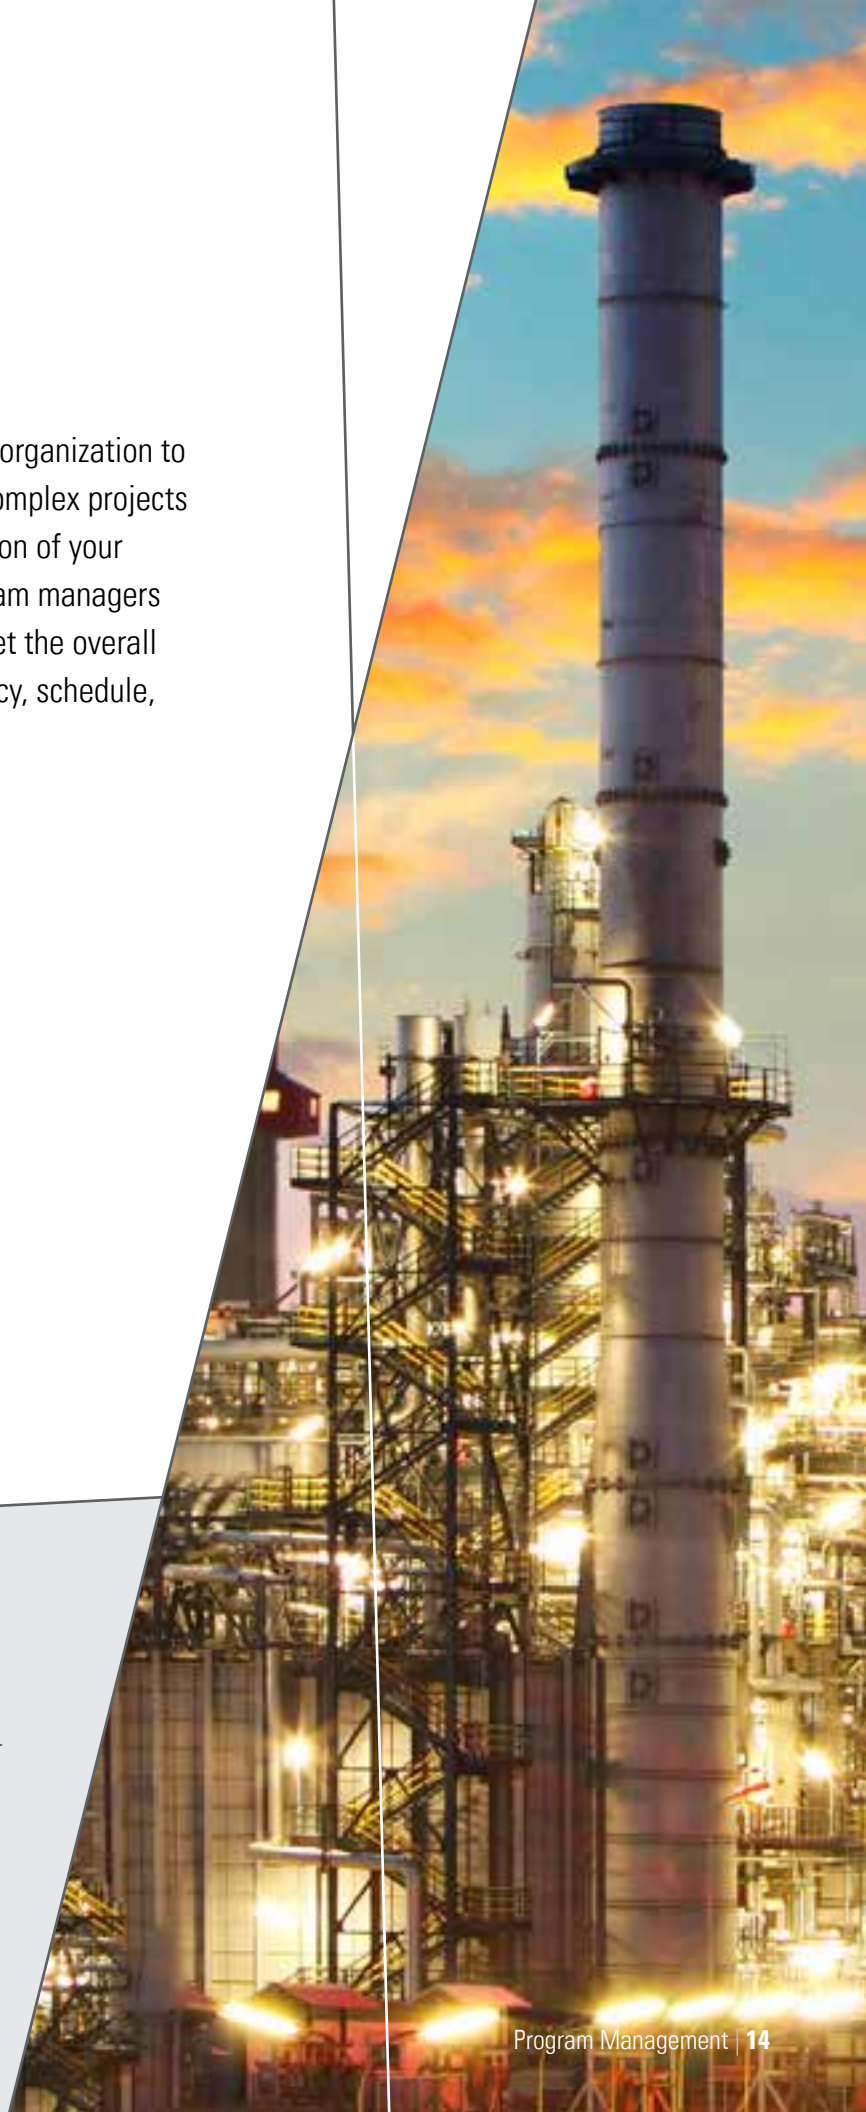

Program Management

Our teams are uniquely qualified to work with your organization to develop strategic approaches to delivering large, complex projects and programs with efficiency, serving as an extension of your team. Proactive, responsive, and flexible, our program managers integrate all aspects of project management to meet the overall program goals, with commitment to safety, efficiency, schedule, and exceptional client satisfaction.

Utility Risk Management

Utility Engineering & Surveying

Utility Risk Management

When you work with Cardno, you get a single point of contact for all aspects of utility risk management and integrated infrastructure services.

Cardno is a professional services company offering a wide range of integrated engineering, infrastructure, environmental, scientific consulting, and field services to provide the expertise and operational efficiencies that support public and private sector clients.

This includes our leading edge work in the field of Utility Engineering and Surveying (UES). UES focuses on the planning, design, construction, operation, maintenance, and asset management of any and all utility systems, as well as the interaction between utility infrastructure and other civil infrastructure.

Mitigating Risk with UE

The risks that existing utilities present to infrastructure projects are tremendous, and they are increasing every day as underground space becomes more congested. Cardno treats utility issues using engineering judgement, focusing attention to properly assess the potential utilities impact on each project.

The foundation of Risk Mitigation is using Subsurface Utility Engineering (SUE) principles to create reliable drawings of the existing underground utilities. Investigations follow the industry recognized ASCE 38 – “Standard Guideline for the Collection and Depiction of Existing Underground Utility Data”, a performance-based standard that allows utility depictions to be shown and attributed according to their relative certainty of location. Once the SUE drawings are produced, using the Quality Levels outlined in ASCE 38, the information can be used for effective Utility Coordination (UC). Professional UC services follow set processes that are vital to identify, mitigate, and manage the risks associated with existing utilities.

With more than 100 offices across North America, Cardno is uniquely positioned to mobilize our UES teams to assess and manage project utility risks of any size at any location.

Our Core Utility Engineering & Surveying services:

Our professionals are certified engineers, geophysicists, surveyors and designers, who bring extensive industry expertise to projects of any size. Services include:

- > Subsurface Utility Engineering (SUE)
- > Project Utility Coordination (UC)
- > Project Utility Risk Management
- > Constructability Around Underground Facilities Studies
- > 3D Underground Mapping
- > Ground Penetrating Radar
- > CCTV Sewer Inspections
- > Geophysical Investigations
- > Site Assessments & Investigations
- > Utility “As-Built” Surveys
- > Utility Condition Assessment
- > Utility Data Asset Management
- > Utility Investigations (SUE & advanced geophysical)
- > Utility Permitting & Agreements
- > Utility System Planning & Design
- > Utility Design & Relocation Design (Public & Private)
- > Construction Administration & Inspection
- > Design & Construction Survey
- > Surveying
- > Terrestrial & Mobile LiDAR

Experience- The Right Solution for your Project

Our high-caliber teams of Professional Engineers, Surveyors, Geologists, planners, designers, and field technicians work with stakeholders and use the current industry standards and technologies to build an effective decision making process, address challenges and conflicts with confidence and complete projects efficiently and with reduced risk.

We work across the US and Canada in all market sectors including roadways, aviation, ports, military installations, rail projects, campus settings, transit, and all phases of land development for public and private sector clients.

Why Cardno? Value & Integrity

We’re here to provide utility engineering or surveying or mapping to mitigate risk for your next project. Our job is to help reduce uncertainties and keep your project moving forward. With decades of experience, top notch equipment and processes, and hundreds of clients working with us over the years, you can be confident that your project will be handled with the attention it deserves.

Each of our assignments are tailored to the ultimate needs of our client and their project. We ensure that clients get value for money by recommending scopes and pricing that will get the results desired in the most economical manner. We treat each assignment as another way to prove our value as a long term partner in your organization’s success.

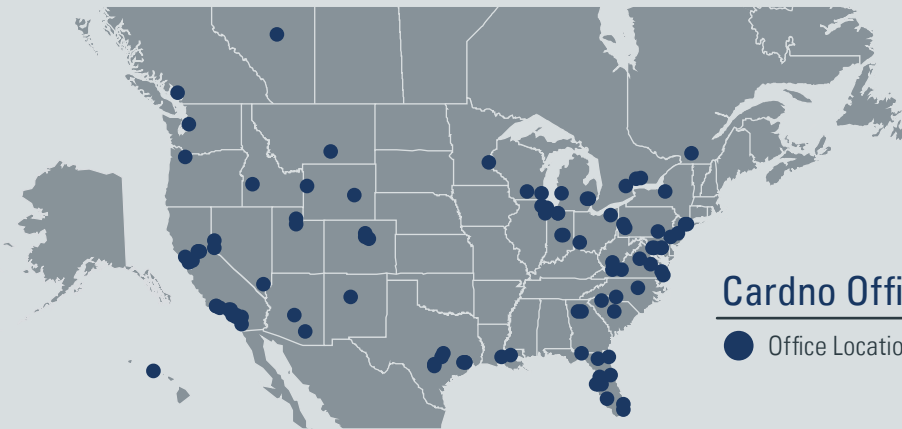

Leading the UES industry

We are proud to be a founding and sustaining member of the American Society of Civil Engineers’ (ASCE)

Utility Engineering and Surveying Institute (UESI), whose mission is to advance the UES practice. Our experts lead the profession through speaking at industry conferences; developing standards and manuals of practice. We lead the industry by example. We develop professional practices that set the bar regarding the expectations for any SUE or Survey Investigation.

OUR STORY

Founded in 1963 by Isaac B. Cox (1918-1989), Cox and Dinkins, Inc., has for over 50 years offered a comprehensive spectrum of civil engineering consulting and land surveying services for both the private and public sectors. Our professional team delivers these services in a timely, efficient, and accurate manner.

Our experienced and highly qualified staff with advanced technical capabilities allows us to consistently deliver a high volume of work with a state-of-the-art, innovative approach that gives our clients a leading edge.

CIVIL ENGINEERING SERVICES

SITE DESIGN:

- SITE PLANNING
- GRADING PLANS
- SANITARY SEWER DESIGN
- STORM DRAINAGE DESIGN
- WATER DISTRIBUTION DESIGN
- LOW IMPACT DESIGN (LID)
- STORMWATER POLLUTION PREVENTION PLANS
- ACCESS AND PARKING LOT DESIGN

ROAD DESIGN:

- SURVEYS
- ROADWAY DESIGN
- DRAINAGE
- UTILITY COORDINATION
- EROSION AND SEDIMENT CONTROL PLANS
- FEASIBILITY STUDIES

LANDSCAPE ARCHITECTURE SERVICES

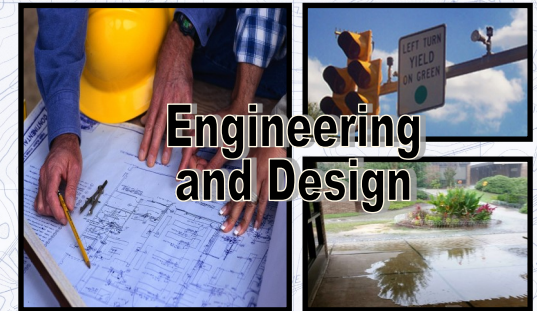

- MASTER PLANNING/SITE DESIGN
- PLANTING/LANDSCAPE DESIGN
- HARDSCAPE DESIGN
- BIO-RETENTION/RAIN GARDENS
- PARKS/PLAZAS/PUBLIC SPACES
- STREETScape
- SUSTAINABLE DESIGN SOLUTIONS

SURVEYING SERVICES

- BOUNDARY
- TOPOGRAPHIC
- UTILITIES
- CONSTRUCTION STAKING AND LAYOUT
- AERIAL CONTROL
- WETLANDS
- GPS
- PROPERTY/RIGHT OF WAY

Surveying

Engineering and Design

Project Coordination

For over 50 years, our projects have ranged from the mountains to the seacoast and have included both large and small jobs for public and private clients.

Strategic Business Plan for ACEC-SC

As of: 10 4 2018

Tactical Implementation							
Strategy	Objective	Tactics (How)	Measures of Success	Who's Accountable	Resources (Who/What)	Timeframe	Progress Update
Grow and Diver+A6:H9sity Membership	Diversify Membership	Form a Membership Committee	Increase in Membership 2018 vs 2017. (Certain % wanted?)	Kevin Shomaker	Michigan and Louisiana approaches	6/15/18	Q1: Q2: Q3: Q4:
Grow the Brand	Transparency	Revisit and Publish Bylaws	Bylaws published to membership	Kylie Page	Current bylaws	5/3/18	Q1: Q2: Q3: Q4:
Grow the Brand	Transparency	Board Meeting review and discussion	Review completed and revisions proposed	Kylie Page	Current and proposed revised bylaws	5/3/18	Q1: Q2: Q3: Q4:
Grow the Brand	Effective Communication	Investigate other Member Org's communication and duplicate where advantageous	Communication Plan developed	Keith Overstreet	Other Communication Plans	6/15/18	Q1: Q2: Q3: Q4:
Legislative Influence	Educate on Legislative process	Legislative Sessions at Conference	Session scheduled and delivered	Adam Jones		June	Q1: Q2: Q3: Q4:
Legislative Influence	Educate on Legislative process	Keynote Speaker at all conferences	Speakers scheduled	Adam Jones		June	Q1: Q2: Q3: Q4:
Legislative Influence	Develop Tools to aid members	Videos/Reference Cards	Plan developed and tools produced	Adam Jones		7/1/18	Q1: Q2: Q3: Q4:
Strategy	Objective	Tactics (How)	Measures of Success	Who's Accountable	Resources (Who/What)	Timeframe	Progress Update
Legislative Influence	PAC Growth through Member Donations	Develop a fundraiser strategy that maximizes potential	Fundraiser plan developed	Adam Jones		4/1/18	Q1: Q2: Q3: Q4:
Legislative Influence	PAC Growth through Member Donations	Form Advocacy Committee	Committee formed and producing	Matt Gehman		7/1/18	Q1: Q2: Q3: Q4:
Impactful Committees	Examine Committee Structure	Determine which Committees need to active to drive organization towards Vision, forming those that are needed and disbanding those that aren't	New Committee structure proposed	Kevin Overstreet		April Board Meeting	Q1: Q2: Q3: Q4:
Energize and Engage Membership	Develop Social Media Strategy	Social Media Training for Board Members	Strategy Developed and Training Delivered	Adam Jones		6/1/18	Q1: Q2: Q3: Q4:
Energize and Engage Membership	Membership Fun Event	Develop and budget for event. Board members responsible for bringing a potential member to event	Event held	Adam Jones		8/2/18	Q1: Q2: Q3: Q4:

[illegible]

ACEC-SC/SCDOT Fall Conference			
TIME	TRACK 1	TRACK 2	TRACK 3
8:00-8:30	Registration		
8:30-9:00	Opening Address		
9:00-9:30	Morning Keynote		
9:30-10:00	Break		
10:00-10:50	Update on Forthcoming AASHTO Design Publications	Carolina Bays Extension	Wando Bridge Presentation
11:00-11:50	GDM 2.0 Presentation	Risk Assessment/Risk Management	Design-Build Environmental (permitting, JDs, mitigation, etc)
12:00-1:30	Lunch Keynote		
1:40-2:30	Advanced 2D-Hydraulic Modeling	Emotional Intelligence for Engineers	Pedestrian and Bicyclist Safety
2:40-3:30	3D Modeling for Transportation	Merging Data from Multiple Platforms for High Accuracy Mapping	Safety Initiatives
3:30-4:00	Break		
4:00-4:45	Afternoon Address		
4:45-6:00	Reception		

Topic Slot	Topic	Speaker	Moderator (s)	Notes
Opening Address	Opening Address	John Boylston & Emily Lawton	Emily Swearingen	Committee to confirm
Morning Keynote	Morning Keynote	Christy Hall	Emily Swearingen	Committee to confirm
Lunch Keynote	Lunch Keynote	Ben Fanning	Melvin Williams	Adam to confirm
Afternoon Keynote	Afternoon Address	Chris Gaskins	Melvin Williams	Committee to confirm
Topic 1A	Update on Forthcoming AASHTO Design Publications	Rob Bedenbaugh	Jeff Mulliken	Casey to confirm
Topic 1B	GDM 2.0 Presentation	Nick Harmon & Jeff Sizemore	Jeff Mulliken	Ryan to confirm
Topic 1C	Advanced 2D-Hydraulic Modeling	Mark Gosselin (Intera)	Phillip Sandel	confirmed
Topic 1D	3D Modeling for Transportation	Seth, Jeff, and Iris Neal	Phillip Sandel	Iris Neal and Jeff Brown have confirmed. Emily to follow up on specifics.
Topic 2A	Carolina Bays Extension	CECS	Matt Lifsey	Paul Raad sent in topic suggestion, need to follow up on speakers and confirm with Leah Quattlebaum that this is a good topic.
Topic 2B	Risk Assessment/Risk Management	Stephanie Burton	Matt Lifsey	confirmed
Topic 2C	Emotional Intelligence for Engineers	Sean Gleason and Susan Habina Woolard	Roger Sears	confirmed
Topic 2D	Merging Data from Multiple Platforms for High Accuracy Mapping	Paul Badr and Allen Brock (GPI Geospatial) and Joy Riley (SCDOT)	Roger Sears	confirmed
Topic 3A	Wando Bridge Presentation	SCDOT	Jen Necker	Casey to discuss/finalize with Traffic
