Civil 3D Users Group Event

Wednesday, April 18, 2018
11:30 a.m. – 12:30 p.m.
Webinar

WisDOT's Methods Development Unit is finishing up their configuration for Civil 3D 2018. This session is a look at some of what WisDOT has incorporated. The presentation will center on user interface, new plot style table standards, project version migration, and improvements to configuration installation/updates. In addition, WisDOT will share other Civil 3D-related initiatives they are working on.

Learning Objectives:

- Become familiar with the Civil 3D 2018 – WisDOT user interface
- Understand the plot style changes that will be introduced.
- Discover the difference between the Civil 3D version and the DWG version.
- Understand the changes to the WisDOT configuration and update process.

Participation:

All participants will receive information on how to join the webinar around a week before the event.

Registration:

This event is free of charge; however, pre-registration by April 11 is requested. Use this registration form or register at www.acecwi.org by April 11.
