

Advocacy in Action Conduit Fund

About the Conduit Fund

The ACEC WI Conduit Fund allows employees of member firms to contribute and personally direct funds to candidates running for state and local elected offices. It is essentially your advocacy checking account. You decide where to direct your dollars. Not sure who to support? ACEC WI will identify and periodically suggest friends of the industry.

Benefits

Using ACEC WI Conduit Fund triples the impact of a single contribution by sharing the credit between you, your employer and ACEC WI. The conduit increases ACEC WI's ability to influence state legislation and regulations in order to protect and enhance the business environment and image of professional engineering firms in Wisconsin.

Who Should Participate?

Participation is open to anyone employed by one of our member firms. A contribution should be viewed as an investment in the future your profession and industry. The more contributions to the fund, the more the industry's voice is heard. You can make an impact with a contribution as small as \$50 or automatically deduct a few dollars per paycheck.

Act Today

Complete and return the contribution form below to advance and protect industry interests.
