1:00 – 4:00 pm	<p>Smarter Data, Better Decisions: Using Excel’s Analyze AI for Adult Ed Administrators</p> <p>This three-hour preconference is specifically designed to equip adult education administrators with practical, hands-on skills to use Excel’s Analyze AI to turn everyday data into timely administrative decisions and identify critical areas needing attention to improve outcomes. Participants move from a clear orientation and live demo to applied workflows that accelerate MSG tracking, early-warning indicators, and item analysis; build risk lists, dashboards, and NRS-friendly reports directly in Excel; and create repeatable, leadership-ready visuals. The series concludes with an implementation playbook, prompt library, and 30-day adoption plan to ensure responsible, sustainable use beyond the conference. Sounds complicated but it’s not. Analyzing your data will never be easier or more fun. Participants must bring their personal device and NRS data to the training.</p>	Dr. Danielle DeConcilio and Amy Donald
