

Bret Perry

Bret Perry is a strategy professional with a deep background in the aerospace and defense industry. He specializes in helping deep technology companies use emerging technologies to solve complex problems, often involving intricate financial and non-market factors. Currently, he serves as the Head of Growth for the Rocket Motors System business line at Anduril, where he leads a sales team that partners with U.S. government agencies and defense primes. The team's focus is on designing and producing custom solid rocket motors to meet specific mission needs. Previously, he was a Business Development Principal at Virgin Orbit, where he assisted allied governments and aerospace companies in finding optimal launch solutions. He was with the company through its development,

IPO, and commercialization phases. Prior to that, he worked as a strategy consultant at Avascent, advising clients on market assessments, capture support, and mergers & acquisitions diligence across the aerospace and defense sectors. He holds an MBA with a certificate in Financial Valuation & Analysis from the University of Southern California's Marshall School of Business and a bachelor's degree in international politics from Georgetown University's Edmund A. Walsh School of Foreign Service, where he focused on non-market strategy.
