

AGC
VIRGINIA

Educational Foundation

Mission

AGCVA Educational Foundation seeks to support programs and activities throughout the Commonwealth designed to attract and train skilled workers in the construction industry.

Vision

AGCVA Educational Foundation will promote careers in Virginia's construction industry by providing funding and other support for workforce development initiatives, including craft training, career orientation programs and job fairs, mentoring, professional development, Hard Hat Camps, scholarships and other grants, and other activities focused upon the construction industry workforce.

Recent activities included:

01

Grants to students seeking careers in construction

02

Annual State Fair Carpentry Contest for high school students

03

A hands on, interactive construction program in conjunction with a major construction project at the Science Museum of Virginia

04

A skills competition for electrical, carpentry, HVAC and students in the Shenandoah Valley

05

Funding for the ACE Program in Charlottesville and Richmond (a mentoring program for high school students interested in careers in Architecture & Construction and Engineering)

Grant opportunities available.
