

WATER RESOURCES AND CONSERVATION PLANNING: UNDERSTANDING THE POLICIES, PRACTICES, & PARTNERSHIPS THAT GUIDE WATER MANAGEMENT IN INDIANA

FREE EVENT. \$30 processing fee for **3 Technical Water CEUs.**

LUNCH WILL BE PROVIDED.

COURSE DESCRIPTION:

This session connects professionals from water systems, conservation, farming, and rural utilities to explore practical strategies for protecting Indiana's water resources.

Participants will gain insights into the current state of Indiana's water supply, source water protection, local water testing, and the role of agricultural practices in supporting cleaner water. The program will also highlight available funding opportunities and resources through local and federal programs.
