

## **Full-Time Wastewater Treatment Operator (NPDES / POTW / Industrial)**

**Pay:** \$35 – \$40 per hour

**Job Type:** Full-Time

**Schedule:** Flexible

**Benefits:** Eligible for benefits

We are seeking a **Wastewater Treatment Operator** to support operations at **POTW and industrial wastewater treatment facilities**. This role focuses on system operation, maintenance, and regulatory compliance under **NPDES permits**. Prior experience is preferred, but we will train qualified candidates with strong mechanical aptitude.

### **Key Responsibilities**

- Operate and monitor wastewater treatment systems at POTW and industrial facilities
- Ensure compliance with **NPDES permit requirements**
- Monitor and adjust treatment processes, including pumps, valves, blowers, clarifiers, and chemical feed systems
- Collect and analyze wastewater samples (pH, flow, BOD, TSS, COD, nutrients, residuals)
- Assist with **Discharge Monitoring Reports (DMRs)** and compliance documentation
- Perform routine inspections, preventative maintenance, and minor repairs
- Identify process upsets and assist with corrective actions
- Maintain accurate operational and maintenance records
- Follow all safety procedures, including confined space and lockout/tagout
- Communicate effectively with supervisors, team members, and customers

### **Qualifications**

- Wastewater treatment experience at **POTW or industrial facilities** preferred (training available)
- Familiarity with **NPDES permitting and compliance** a plus
- Mechanical and troubleshooting skills required
- Basic math skills for flow calculations and chemical dosing

- Knowledge of plumbing systems preferred
- Valid driver's license required
- Must pass background check and drug screening
- State wastewater operator certification preferred or ability to obtain

#### **Why Join Us**

- Competitive hourly pay: **\$35 – \$40 per hour**
- **Full-time position with benefits eligibility**
- Hands-on experience with industrial wastewater systems
- Opportunities for training, certification, and career growth

Apply today if you're safety-focused, detail-oriented, and committed to regulatory compliance and environmental protection.
