

Posters

Posters: A research poster is a physical display of scholarly work, usually reporting empirical research.

Score	Criteria
5	• Abstract clearly describes the purpose and design of the study and briefly summarizes the results. • Data are complete. • A PDF of the completed poster is included.
4	• Abstract clearly describes the purpose of the study. • Complete baseline data and one treatment data point for one participant are included.
3	• Abstract clearly describes the purpose of the study. • Fake data are provided to demonstrate the expected results (clearly labeled as fake data) and a description of the intended timeline for completion is provided.
2	• Abstract vaguely states the purpose of the study. • A description of the intended timeline for completion is provided.
1	• Abstract is insufficient for review (not enough content, too short) • No statement is provided related to timeline for completion; no data are provided.
