

Symposium

Symposium: A Symposium provides a group of presenters an opportunity to share a collection of in-progress or completed research on a theme that is coordinated and led by a chair and includes a discussant. The symposium abstract must provide a clear description of how the students/projects relate in a cohesive theme

- Chair (may also be the discussant OR a presenter, not all three)
- Discussant (may also be the chair, may not be a presenter in the same symposium)
- 2 papers + discussant: 50 min / 1 CEU (≈15 min per presenter; 10–15 min discussant; 5–10 min intro/transitions)
- 3 papers + discussant: 75 min / 1.5 CEU (≈15 min per presenter; 20–25 min discussant; 5–10 min intro/transitions)

Score	Criteria
5	• Abstract describes a clear and cohesive theme of the symposium and how each project uniquely supports the theme. • Data for each study are complete.
4	• Abstract describes the overall theme of the talk and how each talk supports the theme. • Data for each study include baseline and at least one intervention data point for one participant or some preliminary group or survey data.
3	• Abstract describes the overall theme of the talk and mentions that the individual talks relate to the theme without describing how. • Data for at least one of the projects include baseline and at least one intervention data point for one participant or some preliminary group or survey data.
2	• Abstract only describes the overall theme of the talk and does not mention how the individual talks relate to the theme. • There is a statement related to data completion, but no data are submitted.
1	• Abstract is insufficient for review (not enough content, too short) • No data are provided.
