Dear Colleagues,

We are very pleased to welcome you to the 31st Annual Meeting of the Association for the Study of Higher Education, the leading scholarly society dedicated to higher education as a field of study. Inspired by the demographic changes occurring across the United States, this year's conference theme is Borderlands/Lines in Higher Education. Our keynote speakers are Dr. Juliet Garcia and Dr. Marcelo Suarez-Orozco. Dr. Juliet Garcia is the President of the University of Texas at Brownsville and Texas Southmost College. Dr. Garcia is a leader whose vision and accomplishments embody the good that can come from the fusion of different cultures and identities. Professor Suarez-Orozco is the Courtney Sale Ross University Professor of Globalization and Education at The Steinhardt School of Education, New York University and is internationally recognized for his research on Asian, Afro-Caribbean, and Latino immigrant youth in American society. There are also several presidential sessions featuring prominent scholars on current issues impacting higher education, as well as sessions designed to address the graduate student experience in higher education.

We are very grateful to the Program Committee members and to Scott Lloyd for the time they dedicated to the review of over 800 proposals and for their assistance in the development of the program and taking care of small and not so small details.

Coordinator: Karen Miksch/University of Minnesota

Philip T.K. Daniel/The Ohio State University
Kerry Brian Melear/University of Mississippi
John LaNear/University of Wisconsin, Milwaukee
Jeffrey C. Sun/University of North Dakota

The scope of legal issues in higher education is expanding and impacting administrative decision making and public policy. Yet many education researchers and policy makers are unfamiliar with legal research methods. This working session is designed to provide training with a variety of legal research techniques—no prior experience with legal research is necessary to participate. Participants will learn basic legal research approaches, as well as have the opportunity to work in small groups on a focused legal problem. The goal is for participants to leave the session with a specific set of steps and techniques to approach a legal issue.
