

THE IMPACT OF AUSTIN'S Prop A

What is Prop A?

Austin's Proposition A, if passed, will fund Project Connect—a \$7.1 billion light rail and bus system plan.

The plan is touted as an alternative to congestion and an investment that will make significant strides toward Austin's climate and affordable housing goals, and expand transportation equity and accessibility.

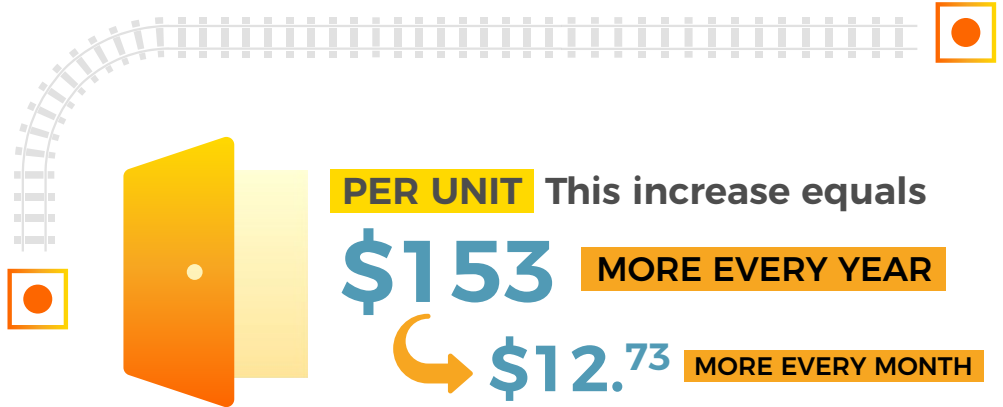

Opponents of Project Connect say that the proposal keeps the city stuck in a centralized transit system, serves too few citizens and that the property tax increase will burden business and homeowners.

Austin Apartment
Communities will Pay

\$28 Million+

EVERY YEAR in additional property taxes

A property tax rate hike will be the primary funding source for Project Connect.
