

EPA608 CERTIFICATION

Thursday,
September 13, 2018

AS LOW AS
\$149
PER PERSON

Earn Your EPA Universal Certification

The Federal Clean Air Act, Section 608, requires that persons who services, maintain, repair or dispose of appliances and equipment that contain regulated refrigerants be certified in proper refrigerant handling techniques.

The EPA has also placed a sales restriction on refrigerants, limiting the sale of regulated refrigerants to certified technicians only.

Technicians who violate the Clean Air Act provisions may be fined, lose their certification, and may be required to appear in Federal Court.

Please bring a photo ID, #2 pencil, and a calculator (not a smartphone).

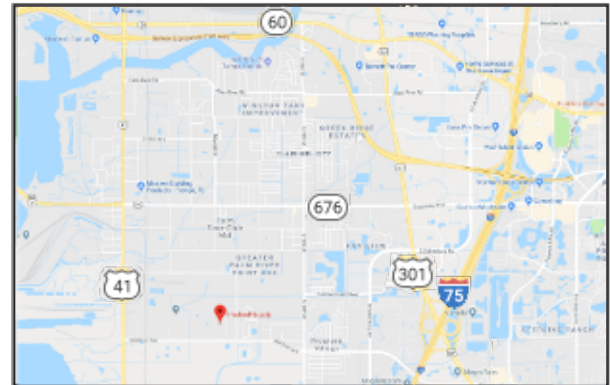

Course Information:
