

2023 HIGH SCHOOL POSTER COMPETITION

Each year, BMES hosts a High School Poster Competition, and we are now accepting applications for the 2023 BMES Annual Meeting in Seattle, WA! This year, the competition will be separated into two tiers. Tier one will consist of the top 10 rated posters. Tier two will consist of honorable mention posters. Details on each can be found below. We encourage students to apply, including those from the Seattle area, BMES High School Student Chapters, or underrepresented backgrounds for the opportunity to present before leading BME experts who will judge the competition.

Am I Eligible?

We accept applications from high school students in their junior or senior year by the start of the 2023 Fall semester.

Date and Time of the Competition

2023 BMES Annual Meeting
Thursday, October 12, 2023
7:30 a.m. - 4:00 p.m.

Prizes

All those participating in the top 10 competition will receive complimentary registration to the 2023 BMES Annual Meeting for themselves and their chaperones, a per diem for the day to help cover food costs, as well as complimentary poster printing services. In addition, three winners will receive a cash prize for best-presented research.

Honorable Mention competition participants will receive a discounted rate of \$100 to the 2023 BMES Annual Meeting for themselves and their chaperones, poster printing services, and a trophy for best-presented research.

Why Should I Apply?

Students selected to compete will broaden their awareness in the field of biomedical engineering, attend cutting-edge keynote presentations, and bolster their collegiate applications with this once-in-a-lifetime experience. Participants will also have ample opportunities to connect with our conference attendees ranging from undergraduate students to postdocs, admissions directors at leading BME programs, and research and industry leaders.

Application Deadline:

Monday, August 14 at 3 p.m. ET
