

## Vanderbilt University

Michael R. King is the J. Lawrence Wilson Professor and Department Chair of Biomedical Engineering at Vanderbilt University. Previously he was the Daljit S. and Elaine Sarkaria Professor at Cornell University, and before that started his faculty career at the University of Rochester. He completed a PhD in chemical engineering at the University of Notre Dame and postdoctoral training in bioengineering at the University of Pennsylvania. He has written textbooks on the subjects of statistical methods and microchannel flows, and has received several awards including the NSF CAREER Award, Outstanding Research Awards from the American Society of Mechanical Engineers and the American Society of Clinical Chemistry, and was a James D. Watson Investigator of New York State. King is a Fellow of AIMBE, BMES, IAMBE, and AAAS, and served as founding Vice President of the International Society of Bionic Engineering. Since 2013 he has been the Editor-in-Chief of Cellular and Molecular Bioengineering, an official journal of the Biomedical Engineering Society. He previously served as Chair of the BME Council of Chairs, and is currently the Chair-Elect of the AIMBE College of Fellows.
