## 2022 BMES Annual Meeting News

**There's still time if you want to attend BMES 2022**

**FREE "streaming-only" registration for BMES 2022**

It might be too late to get any discounts, but it's not too late to register for BMES 2022!

The BMES Annual Meeting is our signature conference, and you simply can't miss out! This year, we're leaving registration open all the way up to the start of the meeting on October 12, so you have more time to register ahead of arriving in San Antonio.

Ditch the line and save some time by registering online!

[Register now](#)

Can't travel to San Antonio? We've got you covered!

To increase equitable access to BMES 2022, we're offering 200 FREE streaming-only registrations.

The streaming-only registration type grants you access to plenary sessions, DEI events, and receptions.

Spots are first-come-first-served, so sign up today!

**2023 CMBE Conference News**

## Registration for CMBE 2023 is OPEN

Act now and lock in early-bird pricing!

This year's theme is intended to disseminate and integrate new advances in mechanobiology, developmental biology, single-cell technologies, bioimaging, and synthetic biology. The ultimate goal of engineering better biological systems is to transform our understanding of the rule of life and translate discoveries in ways that ultimately benefit human health.

## Call for 2023 CMBE award nominations

We are still accepting CMBE award applications!

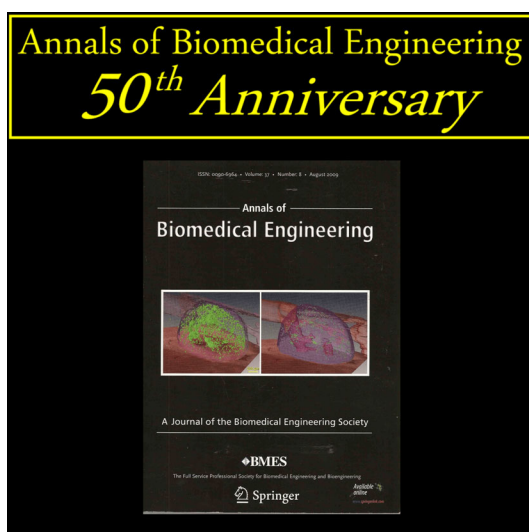

Nominate a colleague (or yourself) for one of the following:

- (NEW!) Momentum Award
- Shu Chien Achievement Award
- Christopher Jacobs Award for Excellence in Leadership

**Deadline to apply: Saturday, October 15, 2022**

## BMES Member News

### **BMES President takes part in White House Summit**

Cornelius Vanderbilt Professor of Engineering and professor of biomedical engineering, Cynthia Reinhart-King, PhD, participated in the White House Summit on biotechnology and biomanufacturing on September 14 in Washington, D.C.

[Read the full story.](#)

### **BMES Fellow is named UVA's department chair**

International leader in biomedical engineering and BMES Fellow, Shayn Peirce-Cottler, PhD, has been named chair of UVA's biomedical engineering department. "I care deeply for this department, and I want to serve the people in it the best I can," Peirce-Cottler said.

[Read the full story.](#)

### **BMES Member is recognized for legacy at Purdue**

Purdue University's biomedical engineering pioneer, George Wodicka, PhD, has been celebrated for his two-plus decades leading the biomedical engineering program. Out of all the achievements, one stands out, transforming a small research center into the renowned Weldon School of Biomedical Engineering.
