

# Advanced Estimating & Material Take-Off

Feb. 8, 2024 | 8AM-4:30PM | Hickory, NC

This course is designed to provide a deeper understanding of residential framing as well as increased efficiency in completing material estimates. This workshop will go beyond basic house design and focus on the difficult areas of completing framing take-offs.

## Topics Covered:

- Irregular floor and roof layouts
- Multi-pitched roofs, intersecting rooflines with over framing
- Vaulted walls and ceilings, rake framing
- Stick-framed roofs including hips, valleys and jack rafters
- Students attending the 2-Day Basic Blueprint Reading & Material Take-Off course may continue with this course provided they have some prior experience with estimating. If registering for this session only, please be sure your personnel have the requisite experience and are familiar with interpreting plans, residential construction methods, and fundamental material take-off concepts. **This is an Advanced Course.**

Instructor: Casey Voorhees has over 40 years of experience in the building material industry. He has been teaching this class around the country for over 28 years.

Fees: **BMSA Members: Special Rate for BMSA Members \$345 per attendee**

**Non-Members: \$545** and must be paid in advance

*Tuition includes program & handout materials.
