

RADIO ONE INC.

4319 35th St, Orlando, FL 32811 Phone: (407) 352-9242

Radio One started in 1990 and has grown into a turnkey systems integrator and one of the largest authorized Motorola Channel Partners in the United States. Headquarters in Orlando FL with offices in Tampa, Daytona, Melbourne, Boca Raton, and Miami, FL. Radio one is recolonized as an Elite Radio Solutions Partner and Authorized Service Partner. Radio One was recently recognized by Motorola Solutions as an "EMPOWER Circle" partner, "Motorola's top recognition of its channel partners worldwide" and one of the very few partners to achieve this recognition.

In addition to our Motorola portfolio of providing sales, service, and rental of Motorola portable/mobile communications systems, Radio One's In-Building Solutions division is recognized as a leader in Public Safety Radio Enhancement throughout the state. Radio One's In-Building Solutions Division (DAS) supports a wide variety of customers including retail, manufacturing, construction, schools, healthcare, hospitality, theme parks, agriculture, utility, transportation, and government agencies.

Radio One has the in-house engineering and local service support teams to design and install a wide variety of communication systems, such as in-building distributed antenna systems, bi-directional amplifiers as well as other advanced technology communications systems. The company is focused on delivering professional solutions to address today's most daunting public safety challenges facing First Responders in a multitude of environments.

Incorporating more than three decades of combined engineering and management experience as well as on-site project expertise, Radio One's in-building solutions significantly improve coverage while increasing connectivity, reliability and capacity in any environment. Our full turnkey services include in-building signal testing, design, permitting, installations, and commissioning with 24 x 7 x 365 maintenance offerings. This is accomplished by our extensive experience in surveying, designing, and constructing systems for stadiums, arenas, university campuses, schools, hospitals, attractions, office buildings, malls, subways, and high-security buildings entirely with in-house resources.

This list captures some of those projects along with the largest theme park operator in the world located in Central Florida.
