2-Hour Interactive webinar**

Course Description: Housing discrimination complaints are on the rise in 2025. In fact, over 165 complaints have been filed since January. Source of income has been a protected class since 2023, so why are we continuing to see complaints? One housing provider said they did not have a problem accepting a voucher, but the owner did. Blatent discrimination! Undercover investigators have found that voucher holders are being discriminated against almost 40% of the time. Let's review how to stop this.

Other topics to be covered include rising complaints in the lack of providing Reasonable Accommodations and Reasonable Modifications. Landlords/owners need to consider the benefit derived from the request, resources available and alternative options before responding. Familial Status complaints are also still being filed against housing providers. This session is for anyone involved in the leasing of residential property in Illinois.
