

CALIFORNIA ASSOCIATION of
ORAL & MAXILLOFACIAL SURGEONS

FIRST CALAOMS JOINT MEETING WITH THE
WESTERN SOCIETY OF ORAL & MAXILLOFACIAL SURGEONS
(WSOMS)

25th ANNUAL MEETING

HAYES MANSION, SAN JOSE, CA

APRIL 26 & 27, 2025

(Anesthesia CE units: 9 / CME units: TBD)

Meeting Dedicatee: Dr. A. Thomas Indresano

SATURDAY, APRIL 26, 2025

**“REVIVE AND THRIVE! OFFICE ANESTHESIA
EMERGENCY SIMULATIONS”**

SPEAKERS:

Deepak Krishnan, DDS, FACS

David Gaba, MD

Jesse West Manton, DDS

SUNDAY, APRIL 27, 2025

“RESIDENT PRESENTATIONS”

Residents from Northern California OMS Training Programs

MODERATOR: Deepak Krishnan, DDS, FACS

OPTIONAL ADD-ON AAOMS OBEAM COURSE

Unique opportunity to take the AAOMS OBEAM Course in California

President's Welcome

It is my great privilege to serve as President of the California Association of Oral and Maxillofacial Surgeons. Our Association is dedicated to supporting and advancing our specialty and is committed to clinical excellence, patient safety, advocacy, and professional development. CALAOMS also addresses the unique challenges our specialty faces in today's evolving healthcare landscape.

CALAOMS relies on the dedication of volunteer leadership. I am deeply grateful to our board members, committee chairs, and volunteers who generously give their time away from practice and family to support our mission. Special thanks to our Executive Director, Pam Congdon, Associate Director, Steve Krantzman, and Continuing Education Director, Teri Travis. Their commitment to delivering essential support and services to our members and patients is truly invaluable.

I want to extend particular appreciation to our Continuing Education Committee, led this year by Dr. Vivian Jui and Dr. Nima Massoomi. They have developed many excellent educational opportunities for our members and their staff, keeping us at the forefront of knowledge and practice. This year, we are excited to again gather at the Hayes Mansion in San Jose for the CALAOMS 25th Annual Meeting on April 26 and 27, 2025. This venue not only offers a welcoming atmosphere but is ideally suited for a weekend dedicated to learning, collaboration, and professional growth. This will be our first joint meeting to be held with the Western Society of Oral & Maxillofacial Surgeons (WSOMS).

On April 26th, distinguished speakers Dr. Deepak Krishnan, Dr. David Gaba, and Dr. Jesse West Manton will share their expertise in anesthesia simulation and crisis management. The following day, attendees will enjoy the always popular presentations from Northern California Oral and Maxillofacial Surgery residents, moderated by Dr. Krishnan.

Additionally, we are offering the Office-Based Emergency Airway Management (OBEAM) simulation course. In using OBEAM's cutting-edge technology, participants have the chance to identify skills for further development and mastery in emergency airway management. This standardized training is

**The AAOMS OBEAM Course will be held on both Saturday & Sunday
for those that have Pre-registered.**

integral to maintaining excellence in office-based anesthesia practices and improving patient safety. The OBEAM course is required every five years to maintain AAOMS membership. CALAOMS is pleased to make this course accessible here in California.

During the Annual Meeting, we are honored to recognize individuals who have shown remarkable dedication to our profession and CALAOMS. This year's meeting is dedicated to Dr. A. Thomas Indresano, former CALAOMS and AAOMS President, whose contributions to education and leadership have left a lasting impact on our field. We also posthumously present the Distinguished Service Award to Dr. Richard Robert, recognizing his exceptional work in anesthesia safety and commitment to CALAOMS. Additionally, Dr. Ben Shimel, Exhibits Committee Chair, will receive the Committee Member of the Year award for his invaluable contributions.

As we look toward the future, new energy and fresh ideas are vital for the future of CALAOMS. I encourage you to consider applying and contributing your talents to serve and actively participate in shaping our future. Legislation is another area of great impact on our specialty, and contributions to CALAOMSPAC are essential for educating legislators about the issues that affect our practices and patient care. Finally, please consider supporting California Care Force, our charitable arm, by donating or volunteering at an upcoming clinic. The work done by CCF is essential to providing free, quality healthcare to under served populations across California, and every effort makes a meaningful difference.

On behalf of the CALAOMS Board of Directors and Continuing Education Committee, I invite you to join us in San Jose in April. I look forward to connecting with you, learning together, and advancing our shared mission to promote the highest standards in oral and maxillofacial surgery.

Sincerely,

George A. Maranon, DDS, MD
President, CALAOMS

25th Annual Meeting Dedicatee

Dr. A. Thomas Indresano

Honoring a Pioneer in Oral and Maxillofacial Surgery

Dr. A. Thomas Indresano is a true pioneer whose remarkable contributions to oral and maxillofacial surgery have spanned over 50 years. From leading and enhancing residency training programs to advocating for patient safety and the highest standards of care, Dr. Indresano has shaped the future of our specialty. His career has touched countless lives through his dedication to education, mentorship, and advocacy.

Born in Massachusetts, Dr. Indresano's academic journey began at Boston University, followed by Harvard School of Dental Medicine, and culminated in his oral and maxillofacial surgery residency at Vanderbilt University in 1974. His long-standing commitment to education and training has seen him serve as a faculty member and program director at renowned institutions across the country, including the University of Chicago, Case Western Reserve, Medical College of Wisconsin, and University of the Pacific.

A Legacy of Education and Advocacy

Dr. Indresano has left an indelible mark on oral and maxillofacial surgery, particularly through his roles as an educator and advocate. He has trained nearly 80 residents and authored over 100 publications, including textbooks, chapters, and journal articles. His advocacy for board certification and his participation in the American Board of Oral and Maxillofacial Surgery and American College of Surgeons set new standards for professional excellence.

In addition to his academic achievements, Dr. Indresano has held leadership positions at the national and local levels, including:

- Chairman of the Oral and Maxillofacial Surgery Residency Program at Highland Hospital (Oakland, CA) for 16 years.
- President of CALAOMS in 2010.
- District VI Trustee for the American Association of Oral and Maxillofacial Surgeons (AAOMS) for 6 years.
- President of AAOMS in 2019.

His leadership has strengthened our profession and ensured that the voices of oral and maxillofacial surgeons continue to resonate across healthcare policy discussions.

A Life of Dedication and Service

Beyond his professional achievements, Dr. Indresano has been a pillar of support for his family. His 49 year marriage to the amazing and supportive Mrs. Rita Indresano – arguably his most notable achievement – along with their five children and seven grandchildren, reflects the harmony he has achieved between his demanding career and personal life.

Join Us in Honoring Dr. Indresano

We invite you to join us on April 26th, 2024 in San Jose to celebrate Dr. Indresano's exceptional career and contributions to oral and maxillofacial surgery. This meeting provides a unique opportunity to reflect on his legacy, his impact on the specialty, and the enduring influence he has had on the lives of so many.

We look forward to sharing this special day with you as we recognize Dr. Indresano's unparalleled achievements and honor his lasting legacy in our field.

~ *Shama Currimbhoy, DDS, MS and Sam Khoury, DMD*

Distinguished Service Awardee ~ Dr. Richard Robert

Dr. Richard Robert, who unfortunately passed away in November of 2023, is being honored with our Distinguished Service Award. His contribution to the profession of Oral & Maxillofacial Surgery is immense and transcended beyond just surgical skills of a brilliant surgeon. His patients knew they could trust him not only for his surgical abilities, but for his kindness, empathy, and unwavering dedication to their health and comfort.

Dr. Robert was also a trailblazer in the fields of anesthesia and emergency preparedness. During his residency in Michigan, he was instrumental in obtaining and utilizing Brevitol in an outpatient setting for the first time. His quest for improving approach to safety, efficiency, and patient experience in Anesthesia led to the first ever "HANDS-ON" emergency course with staff in the early 1980s. His contributions to improving protocols and practices in these areas were a testament to his foresight and his unyielding pursuit of excellence not only in his local practice, but on a state level with CALAOMS and a national level with AAOMS. This led to numerous awards including Educator of the Year from AAOMS, the Distinguished Service Award (two times now), and Committee Member of the Year (three times) from CALAOMS. Dr. Robert also had a profound impact as an

educator at the University of California, San Francisco, where he was given the Distinguished Colleague Award. Beyond the clinical work, he was deeply committed to passing on his knowledge, wisdom, and passion for the profession and safety of OMFS to the next generation of doctors. He lectured with Art Curley on many M and M/anesthesia conferences and Risk Management courses.

Today, we can imagine Dr. Robert is in heaven-still NOT sleeping but always fresh as a “Daisy,” PowerPoint with Sharknado video in hand, organizing emergency drills with his characteristic precision, humor, and “John Denver glasses.”

The world may have lost a great man, but his influence will live on in the countless surgeons, colleagues, and patients he touched throughout his remarkable career. He’s likely already inspired a team of angels, ensuring that even paradise is prepared for anything.

Please join us in honoring Dr. Richard Robert.

~ *William K. Tom, DDS, MS*

Committee Member of the Year ~ Dr. Ben Shimel

It is with great pleasure that CALAOMS honors Dr. Ben Shimel with the Committee Member of the Year Award. Dr. Shimel has been an integral part of CALAOMS since the beginning of his career, consistently volunteering and taking on leadership roles. He currently serves as the Chair of Exhibits and Sponsorship and has been an active member of the Continuing Education Committee since 2020. His calm, balanced perspective and unwavering dedication to staying at the forefront of current information and technology have made him an invaluable asset to CALAOMS. On a national level, Dr. Shimel actively participates in AAOMS’s Day on the Hill and has also volunteered for the CCF Coachella Clinics. He earned his DDS from the University of the Pacific and completed his residency at Highland General Hospital. Dr. Shimel further contributed to the field as Assistant Program Director of Oral and Maxillofacial Surgery at Highland Hospital for two and a half years, as well as an Assistant Professor at the University of the Pacific. He is currently in private practice in San Ramon.

~ *Vivian Jui, DMD*

AAOMS National Simulation Program

**SAVE MONEY ON TRAVEL TO CHICAGO,
BY TAKING THE OBEAM COURSE HERE IN CALIFORNIA!**

OBEAM is part of the AAOMS National Simulation Program designed to nationally standardize OMFS airway management & safety. By 2026, this will be a MANDATORY requirement for all AAOMS members.

The OBEAM Course was only offered at AAOMS headquarters in Chicago or AAOMS Annual Meetings until recently. With the help of AAOMS and Laerdal, who will be providing the latest generation of manikins, CALAOMS has secured 80 spots, on a first come first serve basis.

To register for the OBEAM Course, you must be a Fellow or Member of AAOMS, and register through CALAOMS in conjunction with our 25th Annual Meeting.

Come master your skills on special mannequins that simulate a human being and evaluate your strengths and identify areas you need to improve.

The OBEAM Course will be held on both Saturday and Sunday from 8:00am to 5:30pm for those that have Pre-registered. The course will run concurrently with our Annual Meeting. Therefore, you will have to step away for 2 hours from our annual meeting to attend the OBEAM Course.

The deadline to register is Friday, April 11, 2025. Due to high demand, we anticipate the course to be filled much sooner than this date.

You will receive 6 CE units from AAOMS for this OBEAM Course.

Please Note: The OBEAM Course is an additional \$900, and cannot be offered separately. If you are interested in taking the OBEAM Course, you must register to attend the CALAOMS 25th Annual Meeting.

“THE OMS ANESTHESIA TEAM MODEL - A SWOT ANALYSIS” AND “WHY SHOULD YOU INVEST IN OFFICE EMERGENCY SIMULATION DRILLS?”

Speaker: Deepak Krishnan, DDS, FACS

Saturday, April 26, 2025

(3 Anesthesia CE)

Synopsis of Presentation:

Provision of anxiolysis and anesthesia to our patients remains a cornerstone of our practices. Our training is geared towards learning and maintaining those skills in open-airway general anesthesia for the entire OMS team. Despite a proven record of safety, the OMS anesthesia model is constantly challenged. What are our strengths and weaknesses, opportunities and threats and how can we continue to preserve our anesthesia model? The second lecture will discuss the importance of in-situ mock drills practicing emergencies in the office with your team using your own equipment and the power of eliminating “near misses”.

Educational Objectives:

1. Discuss the strengths and weaknesses of the OMS anesthesia team model
2. Describe the threats to the OMS anesthesia team model
3. Implore and ponder over the future of the OMS anesthesia team model
4. Discuss the importance of creating a culture of emergency drills in the OMS office

Bio: *Deepak Krishnan is the Chief of Oral and Maxillofacial Surgery at the University of Cincinnati and at the Cincinnati Children’s Hospital. He is a Professor of Surgery at the College of Medicine there, where he teaches and practices. Dr. Krishnan obtained his dental degree from Bangalore University, India, and trained in Oral and Maxillofacial Surgery at Emory University’s College of Medicine in Atlanta, Georgia. Upon completion of the residency, Dr. Krishnan pursued further fellowship training in Oral and Maxillofacial Surgery, focusing on orthognathic surgery at Dalhousie University, Halifax, Canada.*

He is director of the American Board of Oral and Maxillofacial Surgery (ABOMS). He is a Fellow of the American College of Surgeons (ACS). He currently serves on the American Association of Oral and Maxillofacial Surgeons (AAOMS) Committee on Anesthesia (CAN) as a consultant on Simulation.

“CRISIS RESOURCE MANAGEMENT”

Speaker:
David Gaba, MD

Saturday, April 26, 2025

(1-1/2 Anesthesia CE)

Synopsis of Presentation, which will address:

Short History about simulation for application to highly dynamic and intrinsically risky activities - i.e. invasive procedures (including anesthesia / maxillofacial surgery and dentistry)

Fundamental Concepts of “Crisis Resource Management” - key goal of many simulations

a) **Dynamic decision making** (*right side*)

- Anticipate and Plan
- Know the Environment
- Use All Available Information
- Allocate Attention Wisely”U
- Mobilize Resources
- Use Cognitive Aids

b) **Teams and team management** (*left side*)

- Call for Help
- Communicate Effectively
- Distribute the Workload
- Establish Role Clarity
- Designate Leadership

Simulation is a Technique, Not a Technology, with many Modes, from non-tech to high-tech

Present (modest) & Future for VR perhaps aided by AI

Bio: *David M. Gaba, MD has been a faculty member at Stanford School of Medicine for over 41 years in the Department of Anesthesiology (with tenure for the last 25 years). Since 2004 he has also been Associate Dean for Immersive and Simulation-based Learning. At VA Palo Alto Healthcare System, he is the Founder and Director for nearly four decades of its Simulation Center, and he has been a Staff Physician there for over 41 years. Over the last 38 years, Dr. Gaba, with various colleagues, fellows, and students, has worked extensively on human performance and patient safety issues. His laboratory invented the modern patient simulator and adapted Crew Resource Management training from aviation to healthcare. He authored 150 journal articles and 30 book chapters, and is lead author of the well-known book “Crisis Management in Anesthesiology” (3rd edition estimated fall 2025).*

“BUILDING A MEDICAL SIMULATION PROGRAM AT THE DUGONI SCHOOL OF DENTISTRY”

Speaker: Jesse West Manton, DDS

Saturday, April 26, 2025

(1-1/2 Anesthesia CE)

Synopsis of Presentation:

Implementing modern simulation equipment and teaching techniques in the dental setting is much more than simply purchasing a rubber doll and telling your team members to go save the patient because they are *dying*. Clinical simulation is a tool, or a method, that the skilled educator can use to uncover hidden deficiencies, and latent patient-safety threats, while also bringing introspection and revelation to each participant, in a safe setting. We will discuss how this tool for teaching and learning is being implemented at the Dugoni school for predoctoral education, as well as the clinical practice of the department of OMS.

Educational Objectives:

1. Discuss training pathways to become a certified simulationist and educator
2. Describe the implementation of a medical simulation program in a dental school
3. Describe the use of medical simulation techniques to prepare a dental team
4. Discuss the importance of debriefing for live and simulation critical events

Bio: Dr. Jesse Manton is a graduate of UOP Dugoni in 2014, VA Palo Alto GPR in 2015, VASF Advanced Clinical Simulation Fellowship in 2016, and Ohio State University Dental Anesthesiology in 2019. He is currently the Chief of the Division of Anesthesiology & Perioperative Care in the Department of Oral & Maxillofacial Surgery at the University of the Pacific Arthur A. Dugoni School of Dentistry in San Francisco, CA, where he serves as an innovator and passionate medical educator for students and residents, and provides general anesthesia and perioperative care services in the school's OMS SurgiCenter.

Free Wi-Fi Provided in the Meeting Room and Exhibit Hall

“RESIDENT PRESENTATIONS”

**Moderator:
Deepak Krishnan, DDS, FACS**

Sunday, April 27, 2025 ~ 8:30 am - 12:30 pm

(3 Anesthesia CE)

Dr. Deepak Krishnan will moderate the “Resident Presentations”. The short presentations will be followed by a lively discussion.

“Resident Presentations”

Northern California Resident OMS Training Programs:

“Contemporary Management of Asthma and Pediatric Considerations for In-Office Sedation”

Presenter: McCay Blatter, DDS

~ University of California San Francisco - Fresno

“Management of the Diabetic Patient for In-Office Sedation Including Patients on GLP-1 Agonists”

Presenter: Navtinder Dhillon, DDS

~ Alameda Health System / Highland General Hospital

“Developing a Private Practice Model for the Simulation of Medical and Sedation Emergencies”

Presenter: Shae D. Bryant, DDS

~ 60th Medical Group / Travis AFB

“The Silver Standard: Safe Anesthesia for Geriatric Patients”

Presenter: Nisarg Patel, DMD, MD, MS

~ University of California at San Francisco School of Dentistry

The AAOMS OBEAM Course will be held on both Saturday & Sunday for those that have Pre-registered.

HAYES MANSION SAN JOSE

200 Edenvale Ave.
San Jose, CA 95136

Hilton Central Reservations: 1(800) 445-8667

www.HayesMansion.com

A HISTORIC HOTEL IN SAN JOSE

As one of Northern California's most iconic and historic destinations, Hayes Mansion is an intimate escape to timeless comfort. This award-winning Silicon Valley hotel, and new member of the Curio Collection by Hilton™, offers extraordinary accommodations, delectable dining, and spacious seclusion to all that journey through our gates. Whether it's an exclusive getaway in San Jose, or an extravagant wedding event gala for hundreds, Hayes Mansion was made to create unique stories that stand the test of time.

With over 33,000 sq. ft. of newly upgraded meeting space, advanced technology capabilities, and 20 acres of expansive outdoor areas, they offer everything needed for groups to come together and connect. No matter the occasion, their IACC certified space was made to add more class, comfort, and culture to events.

ESCAPE AND BE ENTERTAINED

At Hayes Mansion, you're surrounded by the amusing and enticing experiences of Northern California. With attractions like San Francisco's Golden Gate Park, the Monterey Bay Aquarium, the Japanese Friendship Garden in Kelley Park, the San Jose Flea Market, and championship golf at one of San Jose's scenic courses, you're just moments away from everything exciting in Silicon Valley.

From fine dining, brewery tours, scenic beaches, and evening entertainment; from captivating opera concerts in amazing amphitheaters to live music and sporting events – San Jose has it all.

Boasting a variety of nearby shopping malls and iconic California landmarks, the Bay Area offers a plethora of lively locations to explore and stunning spots to capture.

Enjoy a variety of arts and culture-filled venues within proximity during your San Jose getaway.
