

CALIFORNIA ASSOCIATION of ORAL & MAXILLOFACIAL SURGEONS

2026 JANUARY MEETING

& OPTIONAL ADD-ON OBEAM COURSE

**HAYES MANSION, SAN JOSE, CA
JANUARY 17 & 18, 2026**

SATURDAY, JANUARY 17, 2026

**"MEDICATION-RELATED OSTEONECROSIS
OF THE JAWS (MRONJ) - UPDATES FOR THE
PRACTICING ORAL AND MAXILLOFACIAL SURGEON"**

SPEAKERS:

**TARA L. AGHALOO, DDS, MD
JOEL B. EPSTEIN, DMD, MSD,
FRCD(C), FDS RCS(E)**

SUNDAY, JANUARY 18, 2026

**"CLINICAL CHALLENGES IN
AMBULATORY ANESTHESIA FOR THE
ORAL AND MAXILLOFACIAL SURGEON"**

SPEAKER:

William Chung, DDS, MD

**THIS COURSE MEETS THE DBC'S REQUIREMENTS FOR 9 UNITS OF CE.
(6 REGULAR CE ON SATURDAY AND 3 ANESTHESIA CE ON SUNDAY)**

(CME: TO BE DETERMINED)

“MEDICATION-RELATED OSTEONECROSIS OF THE JAWS (MRONJ) - UPDATES FOR THE PRACTICING ORAL AND MAXILLOFACIAL SURGEON”

**Speakers: Tara L. Aghaloo, DDS, MD
Joel B. Epstein, DMD, MSD, FRCD(C), FDS RCS(E)**

Saturday, January 17, 2026 ~ 8:00am - 5:00pm
(6 Regular CE)

Synopsis of Presentation:

Osteonecrosis of the jaws (MRONJ) is a devastating complication of antiresorptive medications utilized for benign and malignant disorders of bone metabolism. MRONJ is defined as exposed, necrotic bone in the maxillofacial region that has persisted for more than eight weeks in a patient with current or previous bisphosphonate treatment, without a history of radiation therapy to the jaws. ONJ was first identified in 2003 and 2004, and its prevalence is reported between 0.8-12%. Difficulties with diagnosis, prevention and treatment exist, often making OMSs uncomfortable recognizing and treating patients on these medications. This lecture will discuss current controversies in the management of MRONJ, including review of the 2022 AAOMS Position Paper. Do the experts agree? Does your clinical management align with current recommendations? How do I treat patients who need dentoalveolar and implant surgery, when they are taking antiresorptive medications? Find out in this interesting discussion of pathogenesis, diagnosis, prevention, and treatment options with new insights and protocols that can be taken back to your office or university the next morning.

Learning Objectives:

- updates on prevalence and etiology of medication-related osteonecrosis of the jaws
- strategies to prevent MRONJ development in patients with cancer and osteoporosis
- discuss treatment and management in patients with MRONJ

Bio: Dr. Tara Aghaloo is a Professor in Oral and Maxillofacial Surgery at the UCLA School of Dentistry. She completed her dental training at the University of Missouri-Kansas City, and Oral and Maxillofacial Surgery residency, M.D., and PhD in Oral Biology at UCLA. She is a diplomate of the American Board of Oral and Maxillofacial Surgery, and her practice focuses on bone and soft tissue regeneration, dental implant surgery, and medication-related osteonecrosis of the jaws (MRONJ). She is also active in professional organizations where she is the Associate Editor for the Journal of Oral and Maxillofacial Surgery, author on the 2014 and 2022 AAOMS Position Paper on MRONJ, and Past-President of the Academy of Osseointegration (AO).

Bio: Dr. Joel Epstein is currently Professor of Surgery, Department of Surgery, Cedars-Sinai Health System, Los Angeles, CA and Medical Director, Dental Oncology Service, Division of Surgery, City of Hope National Medical Center, Duarte, CA. He is a Fellow of the College of Dental Surgeons of Canada in Oral Medicine/Oral Pathology and a Fellow of the Royal College of Surgeons of Edinburgh. He is a Diplomate of the American Board of Oral Medicine and was an examiner and President of the Board of Oral Medicine. He conducts a private referral practice in Oral Medicine and Oral Oncology (Oralmedicinepacific.com). Dr. Epstein is highly published in oral oncology, infectious disease, facial pain and general areas of Oral Medicine, with more than nine hundred contributions to the literature including in osteonecrosis including osteoradionecrosis and medication-related ONJ.

**"CLINICAL CHALLENGES IN AMBULATORY ANESTHESIA
FOR THE ORAL AND MAXILLOFACIAL SURGEON"**

**Speaker:
William Chung, DDS, MD**

**Sunday, January 18, 2026 ~ 8:30am - 12:30pm
(3 Anesthesia CE)**

Synopsis of Presentation:

- Evaluation and management of acute perioperative respiratory complications.
- Evaluation and management of anaphylaxis.
- Review the impact of marijuana use in ambulatory anesthesia.
- Observations from my participation in past AAOMS simulation in anesthesia courses, including the OBEAM.

Learning Objectives:

- Recognize signs and symptoms of acute perioperative respiratory complications.
- Recognize signs and symptoms of anaphylaxis and its therapeutic options.
- Recognize and review the clinical implications of the effects of marijuana use on ambulatory anesthesia in the OMS office.

Bio: Dr. William Chung

Education:

Bachelors degree in English and DDS from Case Western Reserve University, Cleveland, Ohio. MD from Temple University School of Medicine in Philadelphia, PA.

Residency:

Temple University School of Dentistry and Temple University Hospital, Philadelphia.

Faculty Positions:

Full-time faculty in Department of OMS at the University of Pittsburgh upon completion of training (2003-2022); attained Full Professor in 2016.

Clinical and Research Interests: Simulation in Anesthesia and TMJ disease

- *Served on the AAOMS Committee on Anesthesia (CAN) as the District II Rep then as consultant for Simulation in Anesthesia from 2011-2024; involved in the AAOMS OBEAM course since its initial discussions and first live course.*
- *Regenerative Medicine techniques for the reconstruction of the TMJ meniscus in an animal model (NIH and state supported grants); member of the American and European Societies of TMJ Surgeons.*

**The AAOMS OBEAM Course will be held on both Saturday & Sunday
for those that have Pre-registered.**

AAOMS National Simulation Program

OBEAM is part of the AAOMS National Simulation Program designed to nationally standardize OMFS airway management & safety. This will be a mandatory requirement for all AAOMS members in the near future.

With the help of AAOMS and Laerdal, who will be providing the latest generation of manikins, CALAOMS has secured 60 spots. Per AAOMS, pre-registration is required. Onsite registrations will Not be allowed.

To register for the OBEAM Course, you must be a Member of AAOMS, and register through CALAOMS in conjunction with our “2026 January Meeting”.

Come master your skills on special mannequins that simulate a human being and evaluate your strengths and identify areas you need to improve.

The OBEAM Course will be held on both Saturday and Sunday for those that have Pre-registered. The course will run concurrently with our January Meeting. You will have to step away from our meeting for 2 hours to attend the OBEAM Course. (The CALAOMS meeting will not be recorded.)

The deadline to register is Friday, January 2, 2026. Due to high demand, we anticipate the course to be filled much sooner than this date.

You will receive 6 Continuing Education/Continuing Medical Education units from AAOMS for their OBEAM Course.

Please Note: The OBEAM Course is an additional \$900, and cannot be offered separately. If you are interested in taking the OBEAM Course, you must register to attend the CALAOMS 2026 January Meeting.

**CALAOMS 2026 January Meeting
& Optional Add-on OBEAM Course
January 17 & 18, 2026 ~ Hayes Mansion, San Jose, CA**

Registrant: (Please register each attendee separately)
