

CBA Indirect Cost Policy

(adopted by the CBA Executive Board May 8, 2026)

The CBA supports individuals and organizations whose research and work advances the CBA's mission and goals. We recognize that academic institutions and nonprofit organizations may incur costs in the administration of the grant. The CBA permits a charge up to 10% of the grant for indirect costs. If an institution or organization opts to collect the 10%, this needs to be included in the project budget at the time that it is submitted.
