Wooden skewer
Pattern
Toothbrush for scoring
Water for attaching
Round brushes in assorted sizes
Picture of finished project as sculpting and painting guide

Glaze Colors or Acrylic Paint Colors

Cream, Burgundy, Olive Green, Yellow

DIRECTIONS

1. Roll out an 11"x8" clay slab, ½" thick.
2. Place the pattern pieces on the clay. Trace the outlines of the shapes with the skewer and cut out. Smooth the edges.
3. Fold up the edges of the corn shape to form a side about 1" high.
4. Cut out a rectangular base for the husk "hairs." Clay-glue the base shape on the top of the corn shape (score the pieces and add water to attach together). Smooth to blend where attached.
5. Roll out about 8 tiny snakes for hairs, each about 1" long. Clay-glue the hairs on the base. Smooth to blend where attached.
6. Roll small balls for the corn kernels, slightly varying in size. Clay-glue each ball inside the corn "dish." When finished, gently push on each one to give a slightly flattened appearance. Add enough kernels to the dish so that when the husk leaves are attached, the kernels are still showing where they meet.
7. Overlap the smaller husk shape on top of the larger one near the bottom and clay-glue together.
8. Clay-glue the husks to the corn dish so that the bottom edge of the dish and the leaves are even.
