E-Learning from the 2013 Business Survey: Mike Dowsey described what the survey said about e-learning usage within the membership and compared it with the 2011 Business Survey results where possible.

Alas, gremlins interfered with the “live” recording and so the presentation was re-recorded subsequently. The [recording](#) and the [charts](#) are available.

The new SIG Chair, Darryl Swerbrick of IBM, led a discussion on topics suggested for future meetings, with the result that we have an offer of an m-learning case study from FO and VILT updates from DA, FO, ED and DO.

Next Meeting:

Once DS has confirmed dates for the topics suggested, a meeting notice will be sent at least two weeks in advance.
