Steps To Data Privacy Compliance

in a K-12 Environment using the CA Student Privacy Alliance
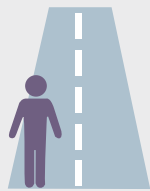

attend **training**

get a **login** for the CSPA database

introduce the CSDPA to your Admins and Board.

develop your **district's plan** for compliance

share the district's plan with staff

gather an inventory of the resources being used within your district

search the CSPA database for **Exhibit E** for the resources you are using

contact provider's who are not in the database

keep track of the **status** of your resources
