Released: January 13, 2012, 12:00 p.m. PST

## Tomato Processors Expect to Contract 12.7 Million Tons in 2012

The USDA-NASS California Field Office surveyed the State's tomato processors for their intended contract acreage and tonnage for the upcoming 2012 season. The data reported by processors was either tonnage with derived acreage, or acreage with derived tonnage.

California's tomato processors reported they have, or will have, contracts for 12.7 million tons this year, as of January. Processors estimate that the contracted production for 2012 will come from 266,000 acres producing an average yield of 47.74 tons per acre. The contracted planted acreage forecast is 8,000 acres more than what was reported under contract in the August 2011 California Processing Tomato Report.

This early processing tomato estimate is funded by the California League of Food Processors, in cooperation with the California Department of Food and Agriculture.

## Intended and Final Harvested Contracted Production

Year	1-Jan	Final 1/	Difference 1/
	Thousand Tons		
1997	9,600	9,242	-358
1998	10,000	8,846	-1154
1999	11,500	11,990	+490
2000	10,100	10,131	+31
2001	8,900	8,564	-336
2002	10,500	10,806	+306
2003	10,900	9,141	-1759
2004	11,000	11,350	+350
2005	10,300	9,440	-860
2006	11,600	10,024	-1576
2007	12,000	11,965	-35
2008	11,800	11,691	-109
2009	13,300	13,314	+14
2010	12,600	12,297	-303
2011	12,600	---	---
2012	12,700	---	---

1/ Revised 2011 data will be released in the *Vegetables 2011 Summary* at www.nass.usda.gov on January 26, 2012.
