SUBJECT: Join me at the 2026 CLOC Global Institute

I'm excited to share that I'll be attending the 2026 CLOC Global Institute this May in Chicago. This year's program is built around the theme Stronger by Design, with sessions focused on AI training and governance, resource optimization, career growth, skills development, and the evolving design of modern legal departments.

It's one of the best opportunities in our field to learn what's working, hear real-world examples, and connect with peers who are solving similar challenges with intention, structure, and thoughtful design. I'm looking forward to the practical insights, conversations, and collaboration that make CGI such a standout experience.

If you're planning to attend, let's connect in Chicago.
