

LIVESTOCK CENTER TOUR & NETWORKING SOCIAL

FEBRUARY 5
3:00 - 5:00 PM MT

The in-formation Colorado chapter of the Construction Owners Association of America (COAA) is thrilled to host an exclusive tour of the brand-new Sue Anschutz-Rodgers Livestock Center at the National Western Center.

This isn't just any building ... it's the campus' most versatile powerhouse. Designed for year-round action, the Livestock Center flexes for everything from the iconic Stock Show to community festivals, sporting events, graduations, concerts, and more. As the largest facility built by the City and County of Denver in decades, it's a bold investment in adaptability, innovation, and the future of Western culture. Western heritage meets modern ingenuity ... and you get an inside look.

And because no COAA gathering is complete without a little fun ... stick around after the tour for a networking social! Details coming soon.

LOCATION

Sue Anschutz-Rodgers
Livestock Center
4850 National Western Drive
Denver, Colorado 80216
