

2026 COAA-WI FALL WORKSHOP SMALL PROJECTS, BIG IMPACTS

THURSDAY, OCT. 1

WAUWATOSA, WISCONSIN

Join industry peers, October 1 at the Milwaukee Regional Medical Center, for a fall workshop hosted by the Wisconsin chapter of COAA. The focus is best practices for small or minor projects – a topic applicable to almost all “serial builder” Owners. Following lunch and a COAA Cares presentation from Kathy’s House, dive into a discussion of better ways to deliver “small but mighty” projects. Next, you’ll learn about recent projects at the nearby Versiti Blood Research Institute (VBRI) and tour the completed space. Join your fellow attendees for an optional happy hour after the workshop.

Thank you, event sponsors!
