

JASON SUTTON UNIVERSITY OF TEXAS MD ANDERSON CANCER CENTER

Jason is a Principal Project Manager in the Facilities Design and Construction department at the University of Texas MD Anderson Cancer Center in Houston. His team is responsible for the research and administrative portfolio of institutional projects, one of the larger programs in the Texas Medical Center. Jason's background prior to joining MD Anderson included the oil & gas, space flight, industrial design and construction, and healthcare facilities management industries.

Jason graduated from Texas A&M University with a degree in Industrial Engineering and received a Master of Engineering Management from the University of Houston Clear Lake. He is licensed as a Texas Professional Engineer, holds the PMI PMP Certification, and has earned Six Sigma green and black belt certifications.

Jason has been a guest speaker at various facilities management and construction industry events, with a focus on leading and developing collaborative working relationships and the "softer skills" of executing projects and getting things done.

In his spare time, Jason enjoys making saw dust and transforming raw materials into something treasured.
