

WARREN L. WILLIAMS

LORD AECK SARGENT

(A KATERRA COMPANY)

Warren is a principal and laboratory architect with Lord Aeck & Sargent. With over 28 years of experience, he specializes in the planning, design, and construction administration of science research laboratories and animal facilities for the academic sector, research and development facilities, technical facilities and pilot development/manufacturing facilities for the pharmaceutical, and other life sciences industries.

Warren's experience also includes higher education classroom and campus life facilities. He has worked on over 25 university campuses in 10 states totaling over 5MM square feet of design and construction projects. He has extensive experience in many forms of project delivery methods including DBB, DB, and CMAR utilizing integrated design principles and BIM. Warren attended the University of Florida, where he received his Bachelor of Architecture in 1984.
